The Geography of God's Incarnation Ann Pederson, 2013-07-25 What does geography have to do with the incarnation of God and with our spiritual lives as Christians We will embark on a theological road trip that explores how geographies are at the heart of understanding of God's incarnation in the world It is no surprise to Christians that the center of the incarnation is the person of Jesus Christ God in flesh made manifest However it might be a stretch for some Christians to imagine that the promise that God has become flesh is not only in a person but also in a place in the creation Christians need to expand what incarnation means and what it means to be created in the image of God so that the scope of God's creative and redemptive action and work indeed reaches to the scope of all things from the outer reaches of space to the inner reaches of our hearts To be the creatures of God that God calls us to be requires a kind of dual citizenship within the details of our daily life attending to the needs of our neighbors simultaneously knowing we are part of a greater cosmos whose future is still unfolding

Emily Thompson, Co-Founder and host of Being Boss. What does it mean to be enough? For years, entrepreneur and writer Carrie Severson struggled with her own enoughness. Like so many women, she constantly questioned if she was thin enough, wealthy enough, young enough, or fertile enough. But instead of finding answers, she ended up battling professional and personal burnout. Her struggles with her mental health and her status as a middle-aged woman without her own children. She had to make a change. Shining the light of love on both the good and the bad of her burnout recovery. Severson shares her soul quest and how she learned to navigate her own enoughness. With honesty, tenderness, and vulnerability, she taps into a powerful shared reality illuminating the experiences so many women go through as they too struggle to define success and self-love. Unapologetically Enough is a raw, relatable story readers are calling a mental health must-have. Since its founding in 1624, New York City has been a place that creates things. What began as a trading post for beaver pelts soon transformed into a hub of technological, social, and cultural innovation, but beyond fostering literal inventions like the elevator inside Cooper Union in 1853, Q-tips by Polish immigrant Leo Gerstenzang in 1923, General Tso's chicken reimagined for American tastes in the 1970s by one of its Hunanese creators, the singles bar 1965 on the Upper East Side, and Scrabble 1931 in Jackson Heights, the city has given birth to or perfected idioms, forms, and ways of thinking that have changed the world from Abstract Expressionism to Broadway baseball to hip-hop, news blogs to neoconservatism to the concept of downtown. Those creations and more are all collected in The Encyclopedia of New York, an A to Z compendium of unexpected origin stories, hidden histories, and useful guides to the greatest city in the world, compiled by the editors of New York Magazine, a city invention itself since 1968 and featuring contributions from Rebecca Traister, Jerry Saltz, Frank Rich, Jonathan Chait, Rhonda Garelick, Kathryn VanArendonk, Christopher Bonanos, and more. Here you will find something fascinating and uniquely New York on every page, a history of the city's skyline.
