Buy Now Emily West, 2022-02-22 How Amazon combined branding and relationship marketing with massive distribution infrastructure to become the ultimate service brand in the digital economy Amazon is ubiquitous in our daily lives we stream movies and television on Amazon Prime Video converse with Alexa receive messages on our smartphone about the progress of our latest orders In Buy Now Emily West examines Amazon's consumer facing services to investigate how Amazon as a brand grew so quickly and inserted itself into so many aspects of our lives even as it faded into the background becoming a sort of infrastructure that can be taken for granted Amazon promotes the comfort and care of its customers but not its workers to become the ultimate service brand in the digital economy West shows how Amazon has cultivated personalized intimate relationships with consumers that normalize its outsized influence on our selves and our communities She describes the brand's focus on speedy and seamless ecommerce delivery represented in the materiality of the branded brown box the positioning of its book retailing media streaming and smart speakers as services rather than sales and the brand's image control strategies West considers why pushback against Amazon's ubiquity and market power has come mainly from among Amazon's workers rather than its customers or competitors arguing that Amazon's brand logic fragments consumers as a political bloc West's innovative account the first to examine Amazon from a critical media studies perspective offers a cautionary cultural study of bigness in today's economy

Media Literacy in Action Renee Hobbs, 2024-10-14 There's never been a more important time for students to develop media literacy competencies. When students ask critical questions about the media they consume, they develop fundamental knowledge and critical thinking skills that prepare them for life work and meaningful citizenship. *Media Literacy in Action* addresses learners who are simultaneously active as both creators and consumers of media messages. At the same time, the book recognizes that everyone is vulnerable to media influence because of our dependence on the instant gratification and feelings of connectedness that digital platforms provide. To thrive in a media-saturated society, people need to ask critical questions about what we watch, see, listen to, read, and use. This book gives students those tools.

Key features of the second edition:

- Critical examination of AI technologies, algorithmic personalization, data privacy, and surveillance, and the increased global regulation of digital platforms.
- Attention to media literacy for empowerment and protection.
- Inquiry-oriented approach to learning that cultivates intellectual curiosity and creative expression.
- Full-color presentation with figures and photos to increase student engagement.
- Each chapter includes *Media Literacy Trailblazers*, profiles of key thinkers and their theories, connect students with the discipline of media literacy.
- Media Literacy DIScourse*, NEW! Visual representations of media literacy theoretical principles help learners internalize the practice of asking critical questions as they respond to specific media examples.
- Learning in Action*, NEW! Summary and vocabulary sections combine with Analyze, Create, Reflect, and Act activities to empower students to apply ideas from each chapter.
- Supplemental Materials available at www.mlaction.com. Students can review key ideas, learn about more *Media Literacy Trailblazers*, and watch videos aligned with each chapter. Instructors can access a Teacher's Guide of best practices in class activities, homework, and projects. Also available are chapter summaries, lecture slides, YouTube playlists, and test materials.

Liberty from All Masters Barry C. Lynn, 2020-09-29 An eye-opening and persuasive defense of robust antitrust enforcement as essential to the core principles of American democracy. Publishers Weekly: Very few thinkers in recent years have done more to shift the debate in Washington than Barry Lynn. In *Liberty from All Masters*, he proves himself as a lyrical theorist and a bold interpreter of history. This book is an elegant summoning of a forgotten tradition that can help the nation usher in a new freedom. Franklin Foer: Americans are obsessed with liberty, mad about liberty. On any day, we can tune into arguments about how much liberty we need to buy a gun or get an abortion, to marry who we want or adopt the gender we feel. We argue endlessly about liberty from regulation and observation by the state and proudly rebel against the tyranny of course syllabi and Pandora playlists. Redesign the penny today, and the motto would read: You ain't the boss of me. Yet Americans are only now awakening to what is perhaps the

gravest domestic threat to our liberties in a century in the form of an extreme and fast growing concentration of economic power Monopolists today control almost every corner of the American economy The result is not only lower wages and higher prices hence a concentration of wealth and power in the hands of the few The result is also a stripping away of our liberty to work how and where we want to launch and grow the businesses we want to create the communities and families and lives we want The rise of online monopolists such as Google and Amazon designed to gather our most intimate secrets and use them to manipulate our personal and group actions is making the problem only far worse fast Not only have these giant corporations captured the ability to manage how we share news and ideas with one another they increasingly enjoy the power to shape how we move and play and speak and think An examination of our fall into the economic pit crafted by Amazon Google et al and ideas for how to crawl out Admonitory cautionary and essential Kirkus Reviews starred review
