*Outside the Stacks* Elisabeth Doucett, 2015-04-13 Today's library leaders face a world in which the only constant is change. Seeking out innovative ways to meet the evolving needs of their communities has become a critical part of their responsibilities. In this book Doucett mines new territory in this ongoing effort by exploring how successful organizations outside the stacks conduct their business. She interviews leaders of advertising, online commerce, fundraising, retailing, crowdsourcing, and other organizations including Kickstarter, L.L. Bean, Down East Magazine, and Tom's of Maine, among others, learning what they do exceptionally well. From this research, she presents more than 100 examples of game-changing ideas ready for application in libraries. And most importantly, she articulates a simple process that readers can use to pursue the same path of exploration at their own institutions, including the actual questions used during her interviews. An exciting survey of creativity in action, Doucett's book will encourage public library directors, managers, trustees, and staff to cross-pollinate their own expertise with innovative ideas from outside the stacks. **EBOOK: Basic Marketing** William

Perreault, Joseph Cannon, E. Jerome McCarthy, 2013-04-16 Built on a strong foundation, *Basic Marketing* 18e with ConnectPlus and LearnSmart provides an integrated teaching and learning solution for presenting the four Ps framework and managerial orientation with a strategy planning focus. The Perreault franchise was the pioneer of the four Ps in the introductory marketing course. The unifying focus of *Basic Marketing* has always been on how to make marketing decisions in deciding what customers to focus on and how best to meet their needs. Consistent with our belief in continuous quality improvement, this edition has been critically revised, updated, and rewritten to reflect new concepts, new examples, recent best practices, and to tightly integrate the best digital tools in the industry for ensuring that students are prepared to engage in classroom lectures and pursue future business and marketing careers. **Stinkin' Thinkin': 37 Mental Mistakes, False Beliefs & Superstitions That Can Ruin Your Career & Your Life** Dr. Gary S. Goodman, 2018-11-01

The US space program faced a problem: Astronauts didn't have a pen that could write inside a zero-gravity capsule. NASA invested upward of 1 million to devise a pen that could. Their rivals faced the same problem but they solved it for less than a dollar. They decided to use a pencil. This story is emblematic of two styles of critical thinking and problem solving. America defined its quandary as a pen problem. Fix the pen became the marching order. Others defined the issue as a writing challenge, so alternatives were more likely to be considered and adopted. Most people lose friends, happiness, and career opportunities because they employ inadequate thinking skills and allow biases, false beliefs, and superstitions to govern their behavior. Even highly skilled professionals such as physicians and attorneys are not immune from bad thinking and runaway emotions. They can cost their clients fortunes and even their lives through poor advice and misdiagnoses. This unique program will help you to identify the strengths and limitations of your dominant thinking styles. Consider various models for tackling common and unusual challenges. Apply case studies and hands-on opportunities to use different methods to analyze problems and generate multiple effective responses. Adopt easy methods for creating clarity in thought and written and verbal communications. Take
