Prime Big Deal Days Sleep Hacks Latest:

The Last Thousand Days of the British Empire Peter Clarke, 2010-09-01 A sweeping brilliantly vivid history of the sudden end of the British empire and the moment when America became a world superpower I have not become the King's First Minister in order to preside over the liquidation of the British Empire Winston Churchill's famous statement in November 1942 just as the tide of the Second World War was beginning to turn pugnaciously affirmed his loyalty to the world wide institution that he had served for most of his life Britain fought and sacrificed on a worldwide scale to defeat Hitler and his allies and won Yet less than five years after Churchill's defiant speech the British Empire effectively ended with Indian Independence in August 1947 and the end of the British Mandate in Palestine in May 1948 As the sun set on Britain's Empire the age of America as world superpower dawned How did this rapid change of fortune come about Peter Clarke's book is the first to analyze the abrupt transition from Rule Britannia to Pax Americana His swiftly paced narrative makes superb use of letters and diaries to provide vivid portraits of the figures around whom history pivoted Churchill Gandhi Roosevelt Stalin Truman and a host of lesser known figures though whom Clarke brilliantly shows the human dimension of epochal events The Last Thousand Days of the British Empire is a captivating work of popular history that shows how the events that followed the war reshaped the world as profoundly as the conflict itself **Sleep Hacking for**

Busy Bees: Optimizing Sleep in Short Bursts Ethan West, In our frenetic modern world the quest for efficiency often comes at a steep price We juggle demanding careers personal responsibilities and social obligations all while trying to maintain a semblance of balance Amidst this relentless hustle one crucial aspect of our well being frequently gets shortchanged sleep Have you ever caught yourself wondering How can I get the most out of my sleep in the little time I have If so you're not alone This book delves into the art and science of sleep hacking a practice designed to optimize sleep for those who lead busy lives But before we delve into the nitty gritty let's explore why sleep is non negotiable Sleep is often perceived as a luxury something we can afford to cut back on to squeeze in an extra hour of work or play Yet research consistently underscores that sleep is foundational to our health and well being According to the National Sleep Foundation adults need between 7 to 9 hours of sleep per night for optimal functioning However a staggering one in three adults doesn't meet this requirement leading to a host of physical and mental health issues So why is sleep so important Moore's Rural New-Yorker, 1898 Where Gods Gamble C.
