Ihre Karriereseite zum strategischen Erfolgsfaktor im Recruiting machen **Medien bewahren und verändern** Gabriele Mehling, Kristina Wied, Michael Wild, 2025-01-27 In der Festschrift für Rudolf St. Ber gehen 35 Autorinnen und Autoren den Prozessen des Bewahrens und Veränderns mit von und durch Medien nach. Sie beleuchten kommunikationswissenschaftlich bekanntere sowie weniger erforschte Felder. Im ersten Abschnitt steht das spannungsreiche Verhältnis des Bewahrens und Veränderns im Mittelpunkt, denn das Bewahren muss stets unter der Berücksichtigung veränderter Umweltbedingungen erfolgen. Zugleich bleibt der Wandel selbst materiell, ideell oder funktional auf seinen Ausgangspunkt zurückbezogen. Der zweite Abschnitt umfasst Beiträge in denen die Funktion des Bewahrens und Tradierens der Medien als Quelle für die Forschung im Zentrum stehen. Medien bewahren gesellschaftliches Wissen können aber erst in archivierter Form selbst auch zur Quelle wissenschaftlicher Erkenntnis werden. Der dritte Abschnitt versammelt Texte, die das gemeinsame Sich Verändern von Gesellschaft und Medien fokussieren. Medien sind nicht nur ein Faktor gesellschaftlichen Wandels, sondern werden von ihrer Umwelt selbst zu Adaption und Akkommodation gezwungen. Die interdisziplinäre Zusammensetzung der Texte, das breite Spektrum der Medienbegriffe und der Zeithorizonte von der frühen Neuzeit bis in die nächste Zukunft ergeben spannende Überlappungen und Schnittstellen für Dialoge zwischen den verschiedenen Perspektiven auf mediale Wandlungsprozesse.

Remote Workplace Culture Sean O'Meara, Cary Cooper, 2022-03-03 The way we work has changed and a strong supportive company culture is key for success. When employees work remotely, even occasionally, HR professionals and business leaders need to think differently. Practitioners now need to motivate their workforce, support talent development, ensure an inclusive environment and protect their employees' mental health, all without being in the same physical space. A strong and effective company culture that is built specifically with this purpose in mind is crucial. Remote Workplace Culture is a practical guide that shows how to achieve this and explains why simply replicating what used to happen in the office in a virtual environment doesn't work. This book shows how a strong culture for remote, hybrid and flexible working helps attract the best talent, whether this is nationally or globally, and explains how to prioritize inclusion. There is also specific guidance on wellbeing initiatives, how to replace social learning in a hybrid or remote working culture and how to avoid common pitfalls such as an overreliance on technology, the blurring of work-life boundaries and a misunderstanding of remote working etiquette. Supported by case studies from BBC, Salesforce, leading financial services brands and law firms, Remote Workplace Culture is essential reading for all HR professionals and business leaders needing to develop strong company culture in the new world of work.

Rethinking Informed Consent in the Big Data Age Adam J. Andreotta,2024-12-23 In the big data age providing informed consent online has never been more challenging Countless companies collect and share our personal data through devices apps and websites fuelling a growing data economy and the

emergence of surveillance capitalism Few of us have the time to read the associated privacy policies and terms and conditions and thus are often unaware of how our personal data are being used This is a problem as in the last few years large tech companies have abused our personal data As privacy self management through the mechanism of providing online consent has become increasingly difficult some have argued that surveillance capitalism and the data economy more broadly need to be overthrown This book presents a different perspective It departs from the concept of revolutionary change to focus on pragmatic incremental solutions tailored to everyday contexts It scrutinises how consent is currently sought and provided online and offers suggestions about how online consent practices can be improved upon These include the possibility of subjecting consent gathering practices to ethics committees for review the creation of visual based consent agreements and privacy policies to help with transparency and engagement the development of software to protect privacy and the idea of automated consent functionalities that allow users to bypass the task of reading vast amounts of online consent agreements The author suggests that these small scale changes to online consent obtaining procedures could if successfully implemented provide us with a way of self managing our privacy in a way that avoids a revolutionary dismantling of the data economy In the process readers are encouraged to rethink the very purpose of providing informed consent online Rethinking Informed Consent in the Big Data Age will appeal to researchers in normative ethics applied ethics philosophy of law and the philosophy of AI It will also be of interest to business scholars communication researchers students and those in industry
