Coining for Capital Jyotsna Kapur, 2005 This book is a welcome addition to the literature on children and the media and a most stimulating application of social theory to questions of the child in contemporary film and consumer culture Ellen Seiter author of *The Internet Playground* Children s Access Entertainment

and Mis Education Since the 1980s a peculiar paradox has evolved in American film Hollywood's children have grown up and the adults are looking and behaving more and more like children In popular films such as Harry Potter Toy Story Pocahontas Home Alone and Jumanji it is the children who are clever savvy and self sufficient while the adults are often portrayed as bumbling and ineffective Is this transformation of children into little adults an invention of Hollywood or a product of changing cultural definitions more broadly In Coining for Capital Jyostna Kapur explores the evolution of the concept of childhood from its portrayal in the eighteenth century as a pure innocent and idyllic state the opposite of adulthood to its expression today as a mere variation of adulthood complete with characteristics of sophistication temptation and corruption Kapur argues that this change in definition is not a media effect but rather a structural feature of a deeply consumer driven society Providing a new and timely perspective on the current widespread alarm over the loss of childhood Coining for Capital concludes that our present moment is in fact one of hope and despair As children are fortunately shedding false definitions of proscribed innocence both in film and in life they must now also learn to navigate a deeply inequitable antagonistic and consumer driven society of which they are both a part and a target Licence to Thrill James

statistics that show declining consumption of physical formats that there has not been a mass shift towards purely digital media Physical releases such as special editions DVD box sets and Blu Rays are frequently promoted and sought out by consumers And that past formats such as VHS Laserdisc and HD DVD make for sought after collectible items These trends are also found within particular genres and niche categories such as documentary education and independent film distribution Through its case studies this collection makes a distinctive and significant intervention in highlighting the ways in which the film industry has responded to rapidly changing markets This volume global in scope will prove useful to those studying the distribution and exhibition of films and the economics of the film industry around the world Euro Horror Ian Olney,2013-02-07 Beginning in the 1950s Euro Horror movies materialized in astonishing numbers from Italy Spain and France and popped up in the US at rural drive ins and urban grindhouse theaters such as those that once dotted New York's Times Square Gorier sexier and stranger than most American horror films of the time they were embraced by hardcore fans
