New Generation Communication: Die Kommunikation in einer veränderten Welt Vidya Allemann-Ravi, 2025-05-30

Communication of the new generation is upon us. It was not long ago that the idea of remote working or of machine learning seemed like futuristic endeavors. Yet now the prospect of using various communication technologies to work for us has never been more feasible. We are navigating connected ecosystems and using data technologies and algorithms to keep pace with an ever-shifting business world. This volume focuses on the impact of communication in a changing world on society and business cultures. The issues that are raised by the authors of this volume range from exploring how language and technology interact in the workplace environment to considering the use of generative technologies and artificial intelligence in marketing and advertising. While the authors showcase a diversity of disciplinary and methodological approaches, they are united in their underlying belief that communication in a changing world is by and large a facilitator of dialogue and is powered by interactions and expansive cross-disciplinary conversations.

maxingvest AG *Digital Business and Electronic Commerce* Bernd W. Wirtz, 2024-06-04 This textbook introduces readers to digital business from a management standpoint. It provides an overview of the foundations of digital business with basics, activities and success factors, and an analytical view on user behavior. Dedicated chapters on mobile and social media present fundamental aspects, discuss applications, and address key success factors. The Internet of Things (IoT) is subsequently introduced in the context of big data, cloud computing, and connecting technologies, with a focus on industry 4.0 and the industrial metaverse. In addition, areas such as smart business services, smart homes, and digital consumer applications, as well as artificial intelligence, quantum computing, and automation based on artificial intelligence, will be analysed. The book then turns to digital business models in the B2C (business to consumer) and B2B (business to business) sectors. Building on the business model concepts, the book addresses digital business strategy, discussing the strategic digital business environment and digital business value activity systems (dVASs), as well as strategy development in the context of digital business. Special chapters explore the implications of strategy for digital marketing and digital procurement. Lastly, the book discusses the fundamentals of digital business technologies and security and provides an outline of digital business implementation. A comprehensive case study on Google Alphabet explains Google's organizational history, its integrated business model, and its market environment, rounding out the book.
