*University Rankings, Diversity, and the New Landscape of Higher Education* ,2019-02-18 University rankings are a relatively new phenomenon in higher education Although quite an established practice in the U S it is only within the last decade that attempts to analyse university performance have spread to the rest of the world and that we also have seen new global rankings appear rankings attempting to measure university performance beyond national borders No wonder that this trend is accompanied by a growing interest in studying rankings throughout the world This book is written as part of the effort to better understand rankings and their effects on higher education A serious approach towards university rankings implies that rankings should be analysed properly including the methods used and the indicators chosen and investigate the objectives claimed If university rankings are considered as consumer information then everyone should have an interest in basing such guidance on valid and reliable data and methodology A serious analysis should also discuss the wider implications of rankings as an emerging phenomenon in higher education Consequently the contributions to this book investigate and analyse how different rankings work how they reach their conclusions and on what data and methodology they are built Furthermore it provides a critical reflection about the impact of rankings on higher education how and in what way rankings influence policy making the structure of the sector or the internal life of the sector

**Schoolishness** Susan D. Blum,2024-05-15 In Schoolishness Susan D Blum continues her journey as an anthropologist and educator The author defines schoolishness as educational practices that emphasize packaged learning unimaginative teaching uniformity constant evaluation by others arbitrary forms predetermined time and artificial boundaries resulting in personal and educational alienation dependence and dread Drawing on critical progressive and feminist pedagogy in

conversation with the anthropology of learning and building on the insights of her two previous books Blum proposes less schoolish ways of learning in ten dimensions to lessen the mismatch between learning in school and learning in the wild She asks if learning is our human superpower why is it so difficult to accomplish in school In every chapter Blum compares the fake learning of schoolishness with successful examples of authentic learning including in her own courses which she scrutinizes critically Schoolishness is not a pedagogical how to book but a theory based phenomenology of institutional education It has moral psychological and educational arguments against schoolishness that as Blum notes rhymes with foolishness

**In Pursuit of World-Class Universities** Marcelo Rabossi,K.M. Joshi,Saeed Paivandi,2018-03-10 The pursuit to construct world class universities is an ongoing global obsession across the world which lays emphasis on the development of competitive higher education and research systems as core national economic approach The portrayal world class is more contextual rather than absolute the expression world class university has an irrefutable cachet There is no solo clear cut definition of what organises a world class university WCU but there are few common attributes that majority of the experts point towards The three attributes stated by Philip Altbach and Jamil Salmi that focus on a high concentration of talent abundant resources and favourable governance have been widely discussed in writings and practice Both in developing and developed countries policymakers and higher education leaders are attempting to identify and outline their desires and plans aimed at achieving global ranking for their university universities Despite condemnation of the methodology the choice of indicators and weightings and the reliability and quality of data used for comparing performance the obsession for constructing world class universities has increased over the period of time But how much do we really discern or comprehend regarding the ranking systems What do the rankings really measure Do rankings measure the quality and help in attaining the broad assignment of higher education Does the competition as outcome of ranking raise standards Is the ranking system an apposite instrument to frame higher education policies This edited volume tries to look at the concept of world class universities in milieu of different countries of the world and explore their experiences either in existing WCUs or constructing WCU or attempting to create WCU The country based chapters show differentiated paths of achievements and their approach towards the concept of WCU
