Le Football Russ Crawford, 2016-08 There are two kinds of football in France American football was first played in France in 1909 during the cruise of the Great White Fleet Then during World War I the American military shipped footballs helmets and shoulder pads alongside rifles and ammunition to the western front A 1938 tour of two teams lead by Jim Crowley of Fordham University maintained the game until World War II when the arrival of millions of young Americans in France motivated the U S military to sponsor several bowl games During the 1950s and 1960s when the United States occupied bases in France during the Cold War American soldiers sailors and airmen played more than a thousand football games When France withdrew from NATO however American bases were forced to close leaving American football without a natural home on Gallic shores In the 1970s American college and semi pro teams tried once more to generate interest in the game among French nationals through a series of tours but until a French physical education instructor vacationed in Colorado and brought equipment back to France there was little local enthusiasm for the sport On the back of that vacation and from one team in Paris organized American football in France grew to more than 215 teams with more than 22 000 active players today *Le Football* tackles the struggles and successes of American football in France and discusses how unlike baseball and basketball football has never been an overt instrument of American cultural influence Russ Crawford keeps the chains moving as he shows how the modern homegrown sport developed largely independent of American encouragement into a small but successful culture

Aspect of Pale Night Rob Steiner, 2013-12-03 It's 2005. Blogs are becoming a thing. Flip phones are the epitome of texting tech and AOL still sends out those freebie trial discs. They're also tough times in Detroit, especially for Hamtramck girl and part-time tech blogger Toni Dzielný. Within days she's lost her technical writing job, has to swear off coffee due to her hypertension, and interviews for her dream job as a writer for the Detroit Free Press only to find she's competing for the same job with her beautiful nemesis Kayla Ratcliff. As if that weren't enough, she learns her ex-boyfriend Leo Donnelly was murdered less than two miles from her house. But before he died, he snail-mailed her a mysterious computer disc telling her to keep it secret, keep it safe. And the fact the police consider her a person of interest in Leo's murder doesn't bode well. So when the real murderer threatens Toni, her friends, and her family, she's had enough. Toni enlists the help of her geeky friends to clear her name and learn the contents of the disc before she shares Leo's fate. They discover the disc not only points to why Leo was murdered but that it holds a secret that could save her sick mother's life.
