Broke Stuart Vyse,2018-08-01 Over the last four decades debt bankruptcy and home foreclosures have risen to epidemic levels and the personal savings rate has sunk dangerously low Why in the richest nation on earth can t Americans hold on to their money First published in 2008 Stuart Vyse s *Going Broke* described the epidemic of personal debt that existed in the years leading up to the Great Recession and anticipated the home mortgage crisis that started it Ten years later a fully updated new edition tackles the post recession era of economic recovery Today total household debt has actually surpassed pre recession levels and some of the same problems that preceded the crash are back again But the shape of our troubles has changed the new face of financial failure features auto repossession bankruptcy eviction wage garnishment and being sued for unpaid bills Vyse offers a unique psychological perspective on the financial behavior of the many Americans today who find they cannot make ends meet illuminating these and other causes of our wildly self destructive spending habits But he doesn t entirely blame the victim arguing instead that the mountain of debt burying so many of us is the inevitable byproduct of America s turbo charged economy together with social and technological trends that undermine our self control This new edition illuminates everything from the rise of the credit card and ballooning student loan debt to the expansion of new shopping opportunities provided by social media revealing how vast changes in American society over the last 40 years have greatly complicated our relationship with money Vyse concludes with both personal advice for the individual who wants to achieve greater financial stability and with pointed recommendations for economic and social change that will help promote the financial health of all Americans *Performing Authorship* Cecilia Sayad,2013-09-17 The figure of the auteur continues to haunt the study of film resisting both the poststructuralist charges that pointed to its absence and the histories of production that have described its pitfalls In an era defined by the instability of identities and the recycling of works *Performing Authorship* offers a refreshingly new take on the cinematic auteur proposing that the challenges that once

accelerated this figure's critical demise should instead pump new life into it This book is about the drama of creative processes in essay documentary and fiction films with particular emphasis on the effects that the filmmaker's body exerts on our sense of an authorial presence It is an illuminating analysis of films by Jean Luc Godard Woody Allen Agnes Varda Orson Welles Jean Rouch Eduardo Coutinho and Sarah Turner that shows directors shifting between opposite movements towards exposure and masking oscillating between the assertion and divestiture of their authorial control In the process Cecilia Sayad argues the film author is not necessarily at the work's origin nor does it constitute the end product What this new concept of performing authorship describes is the making and unmaking of a subject

How We Learn Benedict Carey, 2014-09-09 In the tradition of *The Power of Habit* and *Thinking Fast and Slow* comes a practical playful and endlessly fascinating guide to what we really know about learning and memory today and how we can apply it to our own lives From an early age it is drilled into our heads Restlessness distraction and ignorance are the enemies of success We're told that learning is all self discipline that we must confine ourselves to designated study areas turn off the music and maintain a strict ritual if we want to ace that test memorize that presentation or nail that piano recital But what if almost everything we were told about learning is wrong And what if there was a way to achieve more with less effort In *How We Learn* award winning science reporter Benedict Carey sifts through decades of education research and landmark studies to uncover the truth about how our brains absorb and retain information What he discovers is that from the moment we are born we are all learning quickly efficiently and automatically but in our zeal to systematize the process we have ignored valuable naturally enjoyable learning tools like forgetting sleeping and daydreaming Is a dedicated desk in a quiet room really the best way to study Can altering your routine improve your recall Are there times when distraction is good Is repetition necessary Carey's search for answers to these questions yields a wealth of strategies that make learning more a part of our everyday lives and less of a chore By road testing many of the counterintuitive techniques described in this book Carey shows how we can flex the neural muscles that make deep learning possible Along the way he reveals why teachers should give final exams on the first day of class why it's wise to interleave subjects and concepts when learning any new skill and when it's smarter to stay up late prepping for that presentation than to rise early for one last cram session And if this requires some suspension of disbelief that's because the research defies what we've been told throughout our lives about how best to learn The brain is not like a muscle at least not in any straightforward sense It is something else altogether sensitive to mood to timing to circadian rhythms as well as to

location and environment It doesn't take orders well to put it mildly If the brain is a learning machine then it is an eccentric one In How We Learn Benedict Carey shows us how to exploit its quirks to our advantage [Chase's Calendar of Events 2026](#) Editors of Chase's, 2025-10-16 The definitive guide to all holidays and anniversaries The Wall Street Journal 12 500 entries 196 countries 365 days Find out what's going on any day of the year anywhere across the globe The world's date book since 1957 Chase's is the definitive authoritative day by day resource of what the world is celebrating and commemorating From national days to celebrity birthdays from historical milestones to astronomical phenomena from award ceremonies and sporting events to religious festivals and carnivals Chase's is the must have reference used by experts and professionals a one stop shop with 12 500 entries for everything that is happening now or is worth remembering from the past Completely updated for 2026 Chase's also features extensive appendices astronomical data major awards perpetual calendar as well as an exclusive website that puts the power of Chase's at the user's fingertips 2026 is packed with special events and observances including National days and public holidays for every nation on Earth Scores of new special days weeks and months such as International Day of the Snow Leopard Oct 23 World Coding Day Oct 29 World Meditation Day Dec 21 and Salute to Nonprofit Theater Week June 7 13 Birthdays of new world leaders acclaimed authors sports stars and breakout celebrities Information on such special events as the FIFA World Cup 26TM America 250 observances for the 25th anniversary of 9 11 the bicentenary of the Cowes Week Regatta and much more Information on such historical and biographical milestones as the 250th anniversary of the Declaration of Independence the 125th birth anniversary of Hirohito the 100th birth anniversary of Queen Elizabeth II the 100th birth anniversary of Marilyn Monroe the 100th birthday of Sir David Attenborough the 75th anniversary of I Love Lucy and much more All from the reference book that the Los Angeles Times calls the bible of special occasions Get exclusive access to the Chase's Calendar of Events 2026 companion website with Advanced and customized search by date ranges keyword categories attendance however you want What's on Today All of the holidays events anniversaries celebrity birthdays for the current day Unique Festivals of the World click on the map to discover intriguing celebrations by nation Major Awards About the Holidays Glossary of Calendar Terms and Special Months Chase's Calendar of Events is published by an in house team of editors and researchers based in Chicago IL Chase's was first published on Dec 4 1957 by brothers William and Harrison Chase [TBG2025](#) ABM, Asia Bike Media ABM TBG2025
