

A futuristic, high-tech background with a dark blue and black color scheme. The scene is filled with glowing blue lines, circles, and abstract shapes that suggest a complex digital or artificial intelligence environment. In the center, the words "AI OVERVIEW" are prominently displayed in a large, white, sans-serif font. The "AI" is significantly larger than "OVERVIEW". The background elements include what looks like a stylized car wheel on the right, a glowing circular interface on the left, and various geometric patterns and light trails throughout, creating a sense of motion and advanced technology.

Artificial Intelligence in Healthcare Adam Bohr, Kaveh Memarzadeh, 2020-06-21 Artificial Intelligence AI in Healthcare is more than a comprehensive introduction to artificial intelligence as a tool in the generation and analysis of healthcare data. The book is split into two sections where the first section describes the current healthcare challenges and the rise of AI in this arena. The ten following chapters are written by specialists in each area covering the whole healthcare ecosystem. First, the AI applications in drug design and drug development are presented, followed by its applications in the field of cancer diagnostics, treatment, and medical imaging. Subsequently, the application of AI in medical devices and surgery are covered, as well as remote patient monitoring. Finally, the book dives into the topics of security, privacy, information sharing, health insurances, and legal aspects of AI in healthcare. Highlights different data techniques in healthcare data analysis including machine learning and data mining. Illustrates different applications and challenges across the design, implementation, and management of intelligent systems and healthcare data networks. Includes applications and case studies across all areas of AI in healthcare data. *Artificial Intelligence Products in the United States* Syarif M, 2023-11-14 AI product adoption is on the rise, and the market size is expanding. Specifically, data from the United States reveals the Artificial Intelligence market is projected to reach US \$71.8bn in 2023.
