Information Security, Practice and Experience Jin Kwak, Robert H. Deng, Guilin Wang, Yoojae Won, 2010-04-23 This book constitutes the proceedings of the 6th International Conference on Information Security Practice and Experience ISPEC 2010 held in Seoul Korea in May 2010 The 28 papers presented in this volume were carefully reviewed and selected from 91 submissions They are grouped in sections on cryptanalysis algorithms and implementations network security access control identity management trust management public key cryptography and security applications , Principles and Practice of Constraint Programming - CP 2009 Ian P. Gent, 2009-09-19 This volume contains the papers presented at CP 2009 The 15th International Conference on Principles and Practice of Constraint Programming It was held from September 20-24 2009 at the Rectory of the New University of Lisbon Portugal Everyone involved with the conference thanks our sponsors for their support There were 128 submissions to the research track of which 53 were accepted for a rate of 41.4% Each submission was reviewed by three reviewers with a small number of additional reviews obtained in exceptional cases Each review was either by a Programme Committee member or by a colleague invited to help by a committee member thanks to their particular expertise Papers submitted as long papers were accepted at full length or not at all It is important to note that papers submitted as short papers were held to the same high standards of quality as long papers There is thus no distinction in these proceedings between long and short papers except of course the number of pages they occupy As it happens the acceptance rates of short and long papers were very similar indeed There were 13 submissions to the application track

of which 8 were accepted for a rate of 61.5%. Papers underwent the same review process as regular papers and there was not a separate committee for reviewing application track papers. However, papers in the application track were not required to be original or novel research but to be original and novel as an application of constraints.
