News Literacy and Democracy Seth Ashley, 2019-10-14. News Literacy and Democracy invites readers to go beyond surface level fact checking and to examine the structures, institutions, practices and routines that comprise news media systems. This introductory text underscores the importance of news literacy to democratic life and advances an argument that critical contexts regarding news media structures and institutions should be central to news literacy education. Under the larger umbrella of media literacy, a critical approach to news literacy seeks to examine the mediated construction of the social world and the processes and influences that allow some news messages to spread while others get left out. Drawing on research from a range of disciplines including media studies, political economy and social psychology, this book aims to inform and empower the citizens who rely on news media so they may more fully participate in democratic and civic life. The book is an essential read for undergraduate students of journalism and news literacy and will be of interest to scholars teaching and studying media literacy, political economy, media sociology and political psychology.

China and the Internet Song Shi, 2023-12-15. Two oversimplified narratives have long dominated news reports and academic studies of China's Internet: one lauding its potentials to boost commerce, the other bemoaning state control and measures against the forces of political transformations. This bifurcation obscures the complexity of the dynamic forces

operating on the Chinese Internet and the diversity of Internet related phenomena China and the Internet analyzes how Chinese activists NGOs and government offices have used the Internet to fight rural malnutrition the digital divide the COVID 19 pandemic and other urgent problems affecting millions of people It presents five theoretically informed case studies of how new media have been used in interventions for development and social change including how activists battled against COVID 19 In addition this book applies a Communication for Development approach to examine the use and impact of China s Internet Although it is widely used internationally in Internet studies Communication for Development has not been rigorously applied in studies of China s Internet This approach offers a new perspective to examine the Internet and related phenomena in Chinese society

web jul 8 2019 in order to use the lms to learn an ar model one should use the predictor variant of the least mean squares lms filter basically we predict the x_n sample using past samples x_{n-i} $i = 1 \dots k$ where k is the lms filter order

linear prediction and autoregressive modeling matlab - Sep 26 2022

web find ar model from signal using the yule walker method solving the yule walker equations we can determine the parameters for an all pole filter that when excited with white noise will produce an ar signal whose statistics match those of the given signal x once again this is called autoregressive modeling
