Judd E. Hollander

Ai Image Generator Same Day Delivery:

Artificial Intelligence and Work John Bratton, Laura Steele, 2024-12-04 In an era marked by insecurity from neoliberalism financial volatility political instability regional conflicts pandemics and the climate crisis Artificial Intelligence AI is revolutionizing our work organizations societies and the environment This critical text explores who truly benefits from AI s development and deployment offering a comprehensive overview of AI s nature history and applications It delves into crucial themes such as the future of work digitalization neoliberalism s impact power dynamics ethics inequality gender race intersectional discrimination and environmental sustainability Unlike practical machine learning guides this book examines how AI and AI based technologies are transforming work highlighting both benefits and potential harms Combining critical management and leadership studies with organizational sociology it addresses societal implications inequality ethics and power often overlooked by other textbooks John Bratton s lucid and engaging writing style brings a cutting edge subject to life blending breadth critical analysis and academic rigor Contemporary examples illustrate AI s real life implications for organizations and work today while thought provoking questions encourage readers to engage with and reflect on the topics throughout Authored by John Bratton an Honorary Professor at Queen s University Belfast and Laura Steele a Senior Lecturer in Business and Society at Queen s University Belfast this interdisciplinary text is essential for students studying contemporary and emerging issues in business and management including AI business analytics digitalization and the future of work It is also recommended for courses on the sociology of work ethics organization studies management leadership and HRM This book is poised to become an essential textbook for courses on AI digitalization and the future of work making it a valuable resource for students and educators alike

We Can Teach That Ewa Dziedzic-Elliott, 2024-11-28 Information literacy is a complex subject that finally arrived at the doorstep of school libraries For decades academic researchers have been trying to capture the essence of information literacy its educational cognitive and civic value The collection of book chapters offered in We Can Teach That is a handbook that can be used as an inspiration for teaching various types of literacy visual digital multicultural health and more The book asks important questions When do we start teaching information literacy How do we teach it How does it affect our students at their education level How does it prepare them for their post high school adult life Does it impact their transition to college or career Dziedzic Elliott and her collaborators provide a range of best practices and concepts that inspire thinking about teaching information literacy at all levels Although written with school librarians in mind the book can be easily adapted by teachers school administrators and even public librarians who are looking to incorporate information literacy elements in their daily practices The book challenges the reader to rethink what they know about digital or tech literacy breaks some stereotypical concepts about multicultural literacy and highlights the importance of literacies even in adulthood

Deepfakes Graham Meikle, 2022-09-22 What happens when we can no longer believe what we see Show the AI technologies that create deepfakes enough images of a celebrity or a

politician and they will generate a convincing video in which that person appears to say and do things they have never actually said or done The result is a media environment in which anyone's face and image can be remixed and manipulated Graham Meikle explains how deepfakes synthetic media are made and used From celebrity porn and political satire to movie mash ups and disinformation campaigns this book explores themes of trust and consent as face swapping software becomes more common Meikle argues that deepfake videos allow for a new perspective on the taken for granted nature of contemporary media in which our capacity to remix and share content increasingly conflicts with our capacity to trust The book analyses how such videos deepen the social media environment in which the public and the personal converge and in which all human experience becomes data to be shared Timely clear and accessibly written this is an essential text for students and scholars of media communication cultural studies and sociology as well as general readers Artificial Intelligence and Human Perception Emma Lupano, Paolo Orrù, 2025-05-28 *Inclusive, Sustainable, and Transformational Education in Arts and Literature* Kusubakti Andajani, Sari Karmina, Lidya Amalia Rahmania, 2024-06-05 This book contains the proceedings of The International Seminar on Language Education and Culture ISoLEC 2023 an annual conference hosted by the Faculty of Letters Universitas Negeri Malang With the theme Inclusive Sustainable and Transformational Education in Arts and Literature ISoLEC aims to address key issues such as inclusive education in language arts and culture sustainable education in language arts and culture post pandemic teaching and learning practices corpus based language teaching and research language in media gender and identity pop contemporary and digital culture culture and spirituality multilingualism and translanguaging visual and performing arts oral tradition and local culture and digital literacy and information science This book is a collection of selected articles that were presented at the conference covering issues of arts language and cultures This conference addressed a range of relevant topics including Inclusive Education in Language Arts Culture Sustainable Education in Language Arts Culture Post Pandemic Teaching and Learning Practices Corpus Based Language Teaching and Research Language in Media Gender and Identity Pop Contemporary and Digital Culture Culture and Spirituality Multilingualism and Translanguaging Visual and Performing Arts Oral Tradition Local Culture Digital Literacy and Information Science This proceeding will be of interest to students lecturers teachers and academics who are interested in developing their knowledge in the field of language education and culture Specifically this book will be an interesting read for those who want to reimagine the inclusive and sustainable education **AI in Social Studies Education** Christopher H. Clark, Cathryn van Kessel, 2025 The introduction of widely available generative AI tools has caused a frenzy of both positive and negative reactions Between utopian visions and apocalyptic predictions of AI's impact on education there is a need to thoughtfully consider what education in the age of AI can and should look like This volume focuses on the implications of AI technology for teachers in K 12 and university settings providing a careful look at its affordances and drawbacks for social studies curriculum and teaching Scholars specializing in the field of social studies education provide information and

practical ideas for teaching with current technology alongside frameworks for thinking about future iterations of AI This book fills a critical need especially among educators to consider the current and potential future impacts of AI while avoiding the traps of alarmism or techno utopianism Whether skeptical or enthusiastic about AI every social studies educator will find something useful to their practice in this book

Book Features First ever compilation of AI considerations and strategies in the context of social studies education Nontechnical explanations of what AI can do and not do in practical educational contexts to enable educators to approach its use with careful judgment Advice for educators to help them assess future iterations of AI technology Critical considerations of AI across multiple contexts e g ethics equity multilingual learners cybersecurity Work from leaders in technology and social studies education across Canada and the United States Contributors Erin C Adams Curby Alexander Elizabeth Barrow Daphanie Bibbs Ariel Cornett Matthew Cress Kevin Donley Leslie Smith Duss Lindsay Gibson Thomas C Hammond Marie Heath Dawnavyn James Patrick Kane Dan Krutka Liran Ma Tim Monreal Rachel Moylan Julie Oltman Zilong Pan Michelle Reidel Elizabeth C Reynolds Tina C Soliday Vi Trinh Bretton A Varga

The Transfer of Knowledge through Art and Visualization Anna Ursyn, 2023-12-06 This book offers strategies for the transfer of knowledge through combining information technology and visual arts and examining how to visually enhance and convey knowledge Specifically it presents a fresh look at how technology based science inspired projects can be innovatively delivery through artistic methods It explores a selection of inventions gained through the collaboration of internationalist professionals in various fields of knowledge before outlining a new approach in how knowledge can be delivered using the inventions in a novel visual way through action based visual storytelling video graphical display and visualization Crucially it looks at how current media and techniques used for presenting topics in industries corporations commerce and marketing companies could be successfully translated and developed as a presentation skill in the school college or university environment It thus seeks to address the skills that prospective employers expect from students in terms of possessing the ability to create visual presentations of data solutions and products With a sharp focus on the current generation schools academies business and marketing companies and catering to the modern demand for novelty in presentation it makes a strong contribution to the conversation around professional collaboration visual communication knowledge transfer novel technologies and knowledge visualization
