The comprehensive prompt library eliminates the learning curve, allowing immediate implementation. Action checklists ensure you're not just reading but doing. Real-world examples show both spectacular wins and cautionary tales, preparing you for every scenario. Join thousands discovering the AI gold rush isn't just for Silicon Valley insiders. Your demographic isn't a limitation; it's your secret weapon in the \$72 billion AI economy. Stop watching. Start building. Your automated income stream awaits.

Media Management and Artificial Intelligence Alex Connock, 2022-11-18. This cutting-edge textbook examines contemporary media business models in the context of Artificial Intelligence (AI) and digital transformation. AI has dramatically impacted media production and distribution, from recommendation engines to synthetic humans, from video to text tools to natural language models. AI is really the change agent of the media industry. Answered: a natural language generation model. When AI was asked about the subject of this book, it will open incredible opportunities. This book seeks to explore them. The media is examined through four sections: Principles maps business models and the key tools of AI; Platforms covers distribution channels in Games, Streamers, Social Networks, Broadcast, and Digital Publishing; Producers covers the engines of content making, including Scripted Entertainment, Factual Content, Marketing, Creators, and Music; Finally, Pioneers covers emerging sectors of Podcasting, Esports, the Metaverse, and other AI-driven developments. Then, in each chapter, a standard value creation model is applied, mapping a single sector through development, production, distribution, and monetisation. Diverse case studies are analysed from India, Nigeria, South Korea, South Africa, France, the Netherlands, the US, the UK, Denmark, and China, around creative entrepreneurship, revenue models, profit drivers, rights, and emerging AI tools. Questions are provided for each case, whilst chapter summaries cement learning. Applied and technology-focused: this text offers core reading for advanced undergraduate and postgraduates studying Media Management or the relationship between Entertainment Media and Technology. Online resources include chapter-by-chapter PowerPoint slides and an Instructor's Manual with further exercises and case studies.
