Return on Strategy Michael Moesgaard,Morten Froholdt,Flemming Poulfelt,2009-12-04 Why is it that many companies
meticulously following recipes on management and strategy fail Did Google Skype Ryanair Huawei and a number of other
successful companies buy into a well thought out strategy and adhered to that over time How do companies deliberately
opting out of the recipe game and opting into the out of the box thinking fare In short why is it that some companies achieve
a higher Return on Strategy than others Whereas Return on Investment RoI has attracted increased attention over the last
couple of decades little if any attention is being paid to whether companies do at all achieve Return on Strategy RoS and how
This book provides an overview of contemporary strategy literature and recipes brushed up with a view to identifying
explanations as to how recipes has seldom worked as intended One out of several reasons rests on the fact that recipes do
not take the so called X factor into account With the X factor as the starting point the book examines a sample of 50 global
companies of which some has achieved a remarkable high Return on Strategy and others failed The 50 companies covers

most continents as some are from the North America some are from the European continent and others are from different parts of the emerging Asian region threatening companies from the Western hemisphere The book explains the reason behind success and failures and provides practical tools as to how companies may increase their Return on Strategy In the toolbox you will find a framework on how to increase the Return on Strategy as well a number of dynamic positioning tools road maps and bearing points Invariably more and more companies including consultants business leaders and MBAs now work diligently in order to increase their Return on Strategy and the best of them are here to stay successfully are you

Chapter 5 Investing for Passive Income

Step 1 Start Small Think Big

Investing doesn't have to be intimidating. Start by learning the basics of stocks, mutual funds, and real estate. The key is to get started and build momentum. Stock Market: Invest in dividend-paying stocks or mutual funds to generate passive income. Real Estate: If you have the capital, real estate is an excellent way to generate monthly income through rentals or flipping homes. Peer-to-peer lending: Platforms like LendingClub allow you to lend money to individuals in exchange for interest payments.

Step 2: Diversify Your Investments Spread your investments across different asset classes to reduce risk and increase potential returns. Diversification can help smooth out fluctuations in the market.

Chapter 6: Maximizing Your Side Gigs

Step 1: Choose the Right Gig for You Consider your skills, schedule, and location when selecting a side gig. Some options include Ridesharing, Flexibility, and immediate cash, especially in busy cities. Task-based work: Platforms like TaskRabbit can help you earn by completing specific jobs. Delivery driving: If you enjoy driving, companies like DoorDash or Instacart provide flexibility.

Step 2: Work Smart, Not Hard To maximize your earning potential, work during peak hours when demand is high. For example, driving for Uber during rush hour or delivering food on weekends can lead to higher tips and surge pricing.

Chapter 7: Scaling Your Earnings Once you've reached your initial goal of earning 500 a day, think about how to scale and expand. Consider these approaches: Automating your business, Outsourcing tasks to free up your time, Building a team (if freelancing or consulting), hiring subcontractors to help with workload, Investing more, Reinvesting your earnings into higher return investments or business ventures.

Conclusion: Your Path to 500 a Day Achieving 500 a day is not about finding a magic opportunity but rather about combining multiple strategies and focusing on high-value actions. Whether you're building a freelance business, investing in assets, or scaling an online store, the key is to stay consistent, improve your skills, and adapt to changes. It may take time, but with determination and the right approach, earning 500 a day is within your reach.
