Value-creation in Middle Market Private Equity John A. Lanier, 2016-02-17 *Value creation in Middle Market Private Equity* by John A Lanier holistically examines the ecosystem relationships between middle market private equity firms and their portfolio companies Small business is the job creating engine in the US economy and consequently is a prime target market for private equity investment Indeed private equity backs over six of each 100 private sector jobs Both the small businesses in which private equity firms invest and the private equity firms making the investments face inter and

intra company fiduciary leadership challenges while implementing formulated strategy The architecture of each private equity firm portfolio company relationship must be uniquely crafted to capitalize on the projected return on investment that is memorialized in the investment thesis Given the leveraged capital structure of portfolio companies the cost of a misstep is problematic Individual private equity professionals are typically members of multiple investment teams for the firm Not only may each investment team have its own unique leadership style but its diverse members have to assimilate styles for each team in which they participate relative to a specific portfolio company Acquisitions and their subsequent integrations add exponential complexity for both private equity investment and portfolio company leadership teams indeed cultural integration ranks among the most chronic acquisition obstacles Accordingly the stakeholders of private equity transactions do well to embrace leadership best practices in applying value creation toolbox best practices The perspectives of both the private equity investment team and the portfolio company leadership team are within the scope of these chapters *The Publishers Weekly*, 2007 The Crisis of Democratic Capitalism Martin Wolf, 2023-02-02 From the author of *The Shifts and the Shocks* and one of the most influential writers on economics a reckoning with how and why the relationship between democracy and capitalism is coming undone We are living in an age when economic failings have shaken faith in global capitalism Political failings have undermined trust in liberal democracy and in the very notion of truth The ties that ought to bind open markets to free and fair elections are being strained and rejected even in democracy's notional heartlands Around the world democratic capitalism which depends on the determined separation of power from wealth is in crisis Some now argue that capitalism is better without democracy others that democracy is better without capitalism This book is a forceful rejoinder to both views It analyses how the marriage between capitalism and democracy has become so fraught and yet insists that a divorce would be an almost unimaginable calamity Martin Wolf one of the wisest public voices on global affairs argues that for all its recent failings slowing growth increasing inequality widespread popular disillusion democratic capitalism though inherently fragile remains the best system we know for human flourishing Capitalism and democracy are complementary opposites they need each other if either is to thrive Wolf's superb exploration of their marriage shows us how citizenship and a shared faith in the common good are not romantic slogans but the essential foundation of our economic and political freedom [REDACTED] Martin Wolf, 2024-03-07 Kindle 21 Ben Bernanke 2008 1950 1964 20 21 21 2008 1 2 3 Zen
