Training Readers and Writers for a Multimodal and Multimedia Society: Cognitive Aspects Ester

Trigo-Ibanez, Inmaculada Clotilde Santos Diaz, Marcela Jarpa, 2024-02-07 Contemporary societies have been advancing gradually towards the construction of a model of a literate population. Significant efforts have been made so that most citizens can access various sources today using their reading and writing abilities but are we really prepared to face the information age? Is information literacy being promoted from schools? Are individual capabilities being considered? Do we have a true critical literacy? This article collection aims to show an overview of the most recent research ranging from the individual to the collective from the subject's competencies and their beliefs to the way to develop them from school. There is room in this Research Topic for investigations belonging to the linguistic, psychological, and didactic field. This Research Topic aims to address a pressing problem in contemporary world societies. It is proposed to offer various contributions related to critical literacy in general and reading and writing. In this sense, research that addresses analog and digital reading writing processes, academic literacy, and the use of resources such as non-fiction illustrated books to develop critical thinking will be welcome. But also, and in a very important way, the cognitive processes of the subject will be considered not only to deal with access to information but also in the construction of their mental lexicon, an issue that offers the vision of the world of those who are immersed in literacy and in the post-truth era.

Encouraging Positive Behaviors in Today's Kids Mary Lou

McCormick, 2020-09-01 A new guide for a new age is here to assist educators in dealing effectively with common problematic behaviors such as Aggression, Defiance, and other concerns such as Developing Empathy, Sexual Abuse, Indicators of today's kids. It presents various interventions, strategies, and activities compatible with the democratic principles of the larger society. No punishment, intimidation, or threats allowed. This handbook is provided to assist kids of all ages in developing skills in self-reliance, self-discipline, and self-determination, making them good decision makers in matters that affect their lives, a gift that will last a lifetime.

Reading Comprehension Instruction, 1783-1987 H. Alan Robinson, 1989 This book examines the methods, materials, outcomes, and technologies of past literacy practice with special focus on the teaching of reading comprehension. The book presents a study of published texts on reading comprehension instruction in America in the preresearch period 1783-1910 as well as published research reports from 1910 through 1987. The book argues that many of the trends in comprehension instruction can be traced to developments in American psychology and looks at future directions for both the practitioner and the researcher. A review of all the studies focused on reading comprehension instruction discussed in the book and an alphabetical listing by author of each study are included in the appendixes. *KEH Teaching Kids with Learning Difficulties in Today's Classroom* Susan Winebrenner, Lisa Kiss, 2017-02-28 A gold mine of practical, easy-to-use teaching methods, strategies, and tips to improve learning outcomes for students who score below proficiency levels.
