Make Science Fun: Experiments Jacob Strickling, 2017-11-06 Make Science Fun 2 intended for an older more serious age group of 8-15 is designed for children to do actual science experiments not just science activities at home. Most science experiment books aren't experiment books at all. They mostly contain fun science activities which are fun to do, help learn science, but a fun science activity isn't always an experiment. A science experiment sets out to answer a question or solve a problem using a fair and controlled test. To count as a science experiment, you need to take measurements, make observations, and control variables. With space to write hypotheses, record results, make observations, and draw graphs required. Make Science Experiments is a strong foundation on which to build student awareness of the importance of science in everyday lives. **SELLING POINTS** Science experiments for the kitchen, garage, or workshop, bathroom, and garden. Bonus projects perfect for a science fair or school project. Projects using only basic products that can be found in every home, kitchen, or bathroom. Make Science Fun banishes the science is boring stereotype through fun experiments that children can do alone or with friends or parents. The author's YouTube channel [Science Experiments to Blow Your Mind!](#) Thomas Canavan, 2019-10-18 Hold on to your lab goggles and get ready to have your mind blown. From microwave soap monsters to make your own lava lamps, this book is bursting with brilliant experiments that will teach you everything you need to know about the appliance of science. All of the projects can easily be performed at home, and clear instructions are accompanied by entertaining images and informative text. It's the perfect how-to guide for young scientists aged 8-15. *Janice VanCleave's Big Book of Science Experiments* Janice VanCleave, 2020-05-12 Janice VanCleave once again ignites children's love for science in her all-new book of fun experiments featuring a fresh format, new experiments, and updated content standards. From everyone's favorite science teacher comes Janice VanCleave's Big Book of Science Experiments. This user-friendly book gets kids excited about science with lively experiments designed to spark imaginations and encourage science learning. Using a few handy supplies, you will have your students exploring the wonders of science in no time. Simple step-by-step instructions and color illustrations help you easily demonstrate the fundamental concepts of astronomy, biology, chemistry, and more. Children will delight in making their own slime and creating safe explosions as they learn important science skills and processes. Author Janice VanCleave passionately believes that all children can learn science. She has helped millions of students experience the magic and mystery of science with her time-tested, thoughtfully designed experiments. This book offers both new and classic activities that cover the four dimensions of science: physical science, astronomy, biology, and Earth Science, and provide a strong foundation in science education for students to build upon. An ideal resource for both classroom and homeschool environments, this engaging book enables students to experience science firsthand and discuss their observations. Offers low-prep experiments that require simple, easily obtained supplies. Presents a modern, full-color design that appeals to students. Includes new experiments, activities, and lessons. Correlates to National Science Standards. Janice VanCleave's Big Book of Science Experiments is a must-have book for the real-world classroom as well as for any parent.
