TikTok Broadway Trevor Boffone,2024 TikTok Broadway Musical Theatre Fandom in the Digital Age explores how TikTok has revolutionized musical theatre fandom and democratized musical theatre fan cultures and spaces The book argues that TikTok has created a new canon of musical theatre thanks to the way virality works on the app expanding musical theatre into a purely digital realm that spills into other non digital aspects of U S popular culture The De Gruyter Handbook of Automated Futures Vaike Fors,Martin Berg,Meike Brodersen,2024-09-23 How does automation affect us our environment and our imaginations What actions should we take in response to automation Beyond grand narratives and technology driven visions of the future what more can automation offer With these questions in mind The De Gruyter Handbook of Automated

Futures provides a framework for thinking about and implementing automation differently. It consolidates automated futures as an inter and transdisciplinary research field embedding the imaginaries, interactions and impacts of automation technology within their social, historical, societal, cultural and political contexts. Promoting a critical yet constructive and engaging agenda, the handbook invites readers to collaborate with rather than resist automation agendas. It does so by pushing the agenda for social science, humanities and design beyond merely assessing and evaluating existing technologies. Instead, the handbook demonstrates how the humanities and social sciences are essential to the design and governance of sustainable sociotechnical systems. Methodologically, the handbook is underpinned by a pedagogical approach to staging co-learning and co-creation of automated futures with rather than simply for people. In this way, the handbook encourages readers to explore new and alternative modes of research, fostering a deeper engagement with the evolving landscape of automation.

A Filtered Life Nicole Taylor, Mimi Nichter, 2021-12-23. *A Filtered Life* is the first comprehensive ethnographic account to explore how college students create and manage multiple identities on social media. Drawing on interviews and digital ethnographic data gleaned from popular social media platforms, the authors document and make visible routinized practices that are typically hidden and operating behind the scenes. They introduce the concept of digital multiples wherein students strategically present themselves differently across social media platforms. This requires both the copious production of content and the calculated development of an instantly recognizable aesthetic or brand. Taylor and Nichter examine key contradictions that emerged from student narratives, including presenting a self that is both authentic and highly edited, appearing upbeat even during emotionally difficult times and exuding body positivity even when frustrated with how you look. Students struggled with this series of impossibilities yet they felt compelled to maintain a vibrant online presence. With its close-up portrayal of the social and embodied experiences of college students, *A Filtered Life* is ideal for students and scholars interested in youth studies, digital ethnography, communication and new forms of media.
