Digital Populism and the Use of Neo-Propaganda and Fake News Vieira, Andreia Teles, Joaquim, Ana Filipa, Duarte, Alexandre, 2025-05-07

As populism grows across global democracies, the integration of new technologies has significantly amplified the use of propaganda techniques and the spread of fake news. Tools like social media and artificial intelligence (AI) make digital technologies privileged vehicles for populist communication. Due to the use of fallacies, propaganda is confused with fake news, though these techniques are broader and based on political strategies to manipulate public opinion. With the advent of new technologies and the ever-increasing incorporation of AI into social life, political parties are facing a form of two-way communication without intermediaries, meaning they can directly reach and influence the public with reduced costs. Understanding the social impact of digital propaganda may help foster political literacy among civil society.
