McMillan, 2023-07-03 In Digital Immigrants and Media Integration The Smartphone Is the Synthesizer Sally J McMillan draws insights from the lived experience of digital immigrants who are Baby Boomers and who grew up without digital mobile technologies and have transitioned to become smartphone users McMillan traces key points in media evolution that shaped the communication tools that digital immigrants use today demonstrating that continued incremental change has led to a shift in focus from media types to media interfaces with smartphones becoming ubiquitous and indispensable the smartphone she posits is now firmly tied to identity Although the telegraph was the first medium to allow the message to arrive before the messenger and initiated the transition from cool to hot media it is the smartphone that has fully synthesized communication forms and functions into a single digital and mobile device Through collecting and analyzing these personal and public histories

McMillan finds that digital immigrants continue to seek a balance between value and ease and between breadth and depth of communication. Scholars of communication media ecology and technology will find this book of particular interest. Raptor Dorsey Fiske, 2025-10-16. The rapist leaves few clues behind. Millions of people trade stocks in their spare time supplementing their nine to five income with extra profits on the market. And while there are plenty of books on the market that cater to the needs of full time traders, there are precious few that focus on the trading strategies that are best suited for part time traders who must balance the demands of other responsibilities while successfully navigating a changing and dynamic stock market. This handy guide equips part time traders with all the necessary tools for successful trading, including guidance on pre market pre work studies and how to make profitable trades without interfering with one's day job. The Part Time Trader focuses entirely on those trading strategies best suited for part timers, making trading both simpler and more profitable. One of the few books on trading intended and designed specifically for part time traders with other jobs or responsibilities. Includes online access to the author's proprietary trading system that offers easy to follow guidelines for traders who can't spend all day watching the markets. Written by the co founder of SharePlanner Inc, a popular financial website devoted to day trading, swing trading, both long and short, and exchange traded funds. For part time traders who can't dedicate all their time to watching the markets and reading charts, The Part Time Trader offers straightforward, profitable trading advice. **Boys' Life**, 2006-12. Boys Life is the official youth magazine for the Boy Scouts of America. Roger Dale Loring is a genuine baby boomer who finds his existence in the rapidly changing world rather perplexing. In his latest book, he once again offers a collection of lighthearted essays about his dilemmas from the perspective of his current life if they don't have a senior discount. I'm not going there, age. Realizing that the aging process evolved in a way that his adolescent mind never envisioned, Loring now finds that his views on life changes are disturbingly similar to the views of the old people of his youth, people he frequently characterized as old fogies. His essays highlight his humorous take on life that includes opinions about issues such as cell phone upgrades, a man's attention span while operating a television, remote seasonal purse shopping, the differing conversation patterns of men and women, the three hardest part time jobs in America, the crazy world of politics where preaching to the choir dominates all campaigns, and of course the trauma of buying toothpaste. **The Twelve Deaths of Christmas** Rebecca M. Senese, In the weeks leading up to Christmas, private

detective Noel Kringle provides security for the prestigious Bengali Foundation's yearly Toy Stash. While his name's close association to Santa Claus creates excitement for the toy drive, its truth causes other problems. As the days count down, his hair and beard change colour and shape, leaving Noel scrambling as he tries to stop looking like Santa Claus. But when Troy Bengali, head of the Bengali Foundation, turns up dead, buried under the mound of toys, Noel's hair colour becomes the least of his problems. Now Noel must fight to clear his accused associate's name as he searches for the real killer. A killer with a list to kill and checking it twice, drawing no difference between naughty or nice. Leaving only death behind. Mystery with a dash of fantasy. Noel Kringle mixes Christmas and sleuthing in a tale of magic and suspense. **Ain't Nobody That Can Sing Like**

Me Jeanetta Calhoun Mish, 2010-11. Way over yonder in the minor key. There ain't nobody that can sing like me. Woody Guthrie. Originally published as issue 35 of Sugar Mule, A Literary Magazine. www.sugarmule.com. This groundbreaking anthology includes 188 selections of poetry, fiction, creative nonfiction, essays, and visual art by 78 writers and 2 visual artists who currently live in Oklahoma. A powerful gathering of voices singing hymns, telling stories, making truth from a powerful place. Rilla Askew, author of *Fire in Beulah* and *Harpsong*. *AI and Ada* Mark Seligman, 2025-10-07. The book's Preface places the current AI explosion in the context of other technological cataclysms and recounts the author's personal and not always deadly serious AI journey. Chapter One, *Extracting the Essence*, assesses the potential of machine translation of literature, exploiting Vladimir Nabokov's hyperconscious literary art as a reference point. Chapter Two, *Toward an Artificial Nabokov*, goes on to speculate on possibilities for actual artificial creation of literature. Chapter Three, *Large Literary Models*, Intelligence and Language in the LLM Era, explains recent spectacular progress in Generative Artificial Intelligence (GenAI) as exemplified by Large Language Models like ChatGPT. On the way, the chapter ventures to tackle perennial questions: What is intelligence? What is language? and culminates in an assortment of striking demos. The volume's Sendoff considers whether machines, while now arguably intelligent, can ever also gain sufficient sensation and emotion to create language art with other than borrowed depth, and while viewing this development as likely all too soon declines to despair on that account.
