It is extremely valuable for students, business people, managers, executives, artists, and sports people. In fact, it is useful for anyone who desires excellence and creativity and values them in their area of life. I will define excellence as the effortless achievement of a desired goal through the avenue of self-mastery. The aim is to achieve mastery in the area of one's thoughts, emotions, physical body, and relationships, and also to achieve an understanding of how these things are related to the events and circumstances in one's life.
