Producer Price Indexes , 1994 *In Search of a Home* Alan Gilbert, 2025-11-18 Originally published in 1993 In Search of a Home filled a conspicuous gap in the literature on housing in the developing world at the time For many years self help settlement and the owner occupier had commanded the attention of governments and researchers leaving huge numbers of tenants and sharers invisible However the assumption that every family both wished and was able to become an owner occupier was now under scrutiny and it was becoming clear in many of the larger Latin American cities that there was a limit to universal home ownership even of the self help kind Several governments in the developing world had expressed concern about the rental housing market which had long been neglected at the policy level Research activity had begun to respond to these changes and this book put the spotlight on rental and shared housing Based on three large surveys carried out by research teams from Caracas Mexico City and Santiago the book investigates the nature of owners tenants sharers and landlords and explores the relationships between them It considers both government policy and the reasons why rental

housing was in decline In Search of a Home is intended for government planners social scientists and students of development particularly those concerned about urbanization and the housing of the poor It is relevant not only to Latin America but also to many other parts of the developing world where large numbers of families live in rental accommodation

OECD Economic Surveys: United States 2022 OECD,2022-10-12 The United States economy rebounded strongly from the depths of the pandemic recession aided by a large and enduring government policy response However Russia s war against Ukraine and strong inflationary pressures have dampened the economic outlook The administration is reinforcing public welfare through packages that invest in infrastructure and the climate transition but an ageing population means fiscal pressures are on the horizon

Ptoxicocracy M. C. Lohrmann,2025-05-20 The call of the church is ptoxicocracy either as a witness and practitioner or as its ideal standard bearer in the world To have a meaningful stake in the lives of the poor argues M C Lohrmann would change the ways in which governance of all types national or local municipalities denominations religious judicatories and non profit boards determines its focus Lohrmann defines ptoxicocracy derived from the Greek ptoxi the poorest of the poor as governance by the materially poor a hybrid form of representative democracy whereby only persons of the lowest economic status are eligible for elected public office This model he contends allows us to step back from the coupling of wealth and power created by myths of meritocracy and a rich ruling class to envision a system that works for the good of the whole Looking to Scripture Lohrmann follows the through line of God s blessing of the poor in both the Hebrew and Christian canons How might the kingdom of God appear if God s preferential option for the poor became the lens through which we organized our lives together

Against the New Politics of Identity Ronald A. Lindsay,2023-11-14 A far reaching cultural transformation is occurring across much of the West that is threatening the very foundations of democracy Individuals are no longer judged by their deeds actions and behavior but rather are defined by their race ethnicity and sexual orientation Driven largely by the political Left this transformation has led to the wholesale division of individuals into oppressed and oppressor classes Where the Left once organized around liberal principles to ensure that all groups had an equal seat at the proverbial table much of the Left today demands not only that those categorized as oppressed receive priority seating but also that those categorized as oppressor are excluded from the table altogether Government bodies corporations universities and the mainstream media regularly submit to these illiberal commands and explicitly favor certain identity groups over others in the name of allyship antiracism or equity As philosopher Ronald A Lindsay argues in Against the New Politics of Identity this radical cultural shift by which all policies and practices must be seen through the lens of identity rests on three dogmatic tenets those who are alleged to be oppressed or marginalized have special insight based on their lived experience racism is embedded in all Western laws regulations policies and institutions and equity understood as the elimination of all group disparities in all areas of life must take precedence over

all other criteria such as individual merit achievement and need Lindsay demonstrates that these tenets are based on a series of fallacies and warns that the push for identity politics on the Left predictably elicits a parallel reaction from the Right including the Right's own version of identity politics in the form of Christian nationalism As he makes clear the symbiotic relationship that has formed between these two political poles risks producing even deeper threats to Enlightenment values and Western democracy If we are to preserve a liberal democracy in which the rights of individuals are respected he concludes the dogmas of identity politics must be challenged and refuted Against the New Politics of Identity offers a principled path for doing so

Social Welfare Policy and Advocacy Bruce S. Jansson, Ph.D.,2019-03-11 Social Welfare Policy and Advocacy presents a multi level framework to show students how micro mezzo and macro policy advocacy can be used effectively by social workers in eight policy sectors healthcare gerontology safety net child and family mental health education immigration and criminal justice Author Bruce S Jansson identifies seven core problems within each sector and discusses the skills social workers need the challenges they face and the interventions they can use at each level of advocacy Readers will gain knowledge of social welfare policy issues and be equipped with essential tools for engaging in policy advocacy

The Redistribution Recession Casey B. Mulligan,2012-11-29 Major subsidies and regulations intended to help the poor and unemployed were changed in more than a dozen ways after 2007 Economist Casey B Mulligan argues that many of these changes were reasonable reactions to economic events with the intention of helping people endure the recession but they also reduced incentives for people to work and businesses to hire He measures the startling changes in implicit tax rates that resulted from a labyrinth of new and expanded social safety net programs and quantifies the effects of these changes on the labor market and the economy He also reveals how borrowers can expect their earnings to affect the amount that lenders will forgive in debt renegotiation and how this has acted as a massive implicit tax on earning He explains how redistribution in the forms of subsidies taxes and minimum wage laws profoundly altered the path of the economy and made the recent recession one of the deepest and longest in decades The Redistribution Recession is a controversial clear cut and thoroughly researched analysis of the effects of various government policies on the labor market It offers ground breaking interpretations and precise explanations of the interplay between unemployment and financial markets Jacket

BEACON: Issue 1: THE HUMAN RIGHTS ISSUE KC Tregaryn,2025-03-15 Welcome to the inaugural issue of BEACON where we shine a light on the realities shaping our world our rights and our futures This first edition The Human Rights Issue focuses on the fundamental freedoms we all rely on and the growing threats that put them at risk At a time when civil liberties economic security and personal autonomy are under increasing pressure it is crucial to assess where we stand what we face and what can be done to secure a more just and livable future In this issue we define what human rights truly mean and examine how they are being challenged in 2025 This is not just a magazine it is a guide for action BEACON is for those who refuse to sit idly by It is for the thinkers the doers the ones who believe that knowledge is power and that power belongs

Legislative Council and House of Representatives** New Zealand. Parliament,1985 **The Labour Party and the world, volume 2** Rhiannon Vickers,2013-07-19 This is the second book in a unique two volume study tracing the evolution of the Labour Party s foreign policy throughout the 20th century to the present date This is the first comprehensive study of the history of the Labour Party s worldview and foreign policy It argues that Labour s foreign policy perspective should be seen not as the development of a socialist foreign policy but as an application of the ideas of liberal internationalism Volume Two provides a critical analysis of Labour s foreign policy since 1951 It examines Labour s attempts to rethink foreign policy focusing on intra party debates the problems that Labour faced when in power and the conflicting pressures from party demands and external pressures It examines attitudes to rearmament in the 1950s the party s response to the Suez crisis and the Vietnam War the bitter divisions over nuclear disarmament and the radicalisation of foreign and defence policy in the 1980s It also examines Labour s desire to provide moral leadership to the rest of the world The last two chapters focus on the Blair and Brown years with Blair s response to the Kosovo crisis to 9 11 and his role in the war on terror Whereas Blair s approach to foreign affairs was to place emphasis on the efficacy of the use of military force Brown s approach instead placed faith in the use of economic measures This highly readable book provides an excellent analysis of Labour s foreign policy It is essential reading for students of British politics the Labour Party and foreign policy *Housing Politics in the United Kingdom* Brian Lund,2016-10-12 Affordable housing in the United Kingdom has become an ever more potent issue in recent years as rapid population growth and a long term lag in new housing construction have combined to making finding secure affordable housing difficult for a broad range of people This book uses insights from public choice theory the new institutionalism and social constructionism to lay bare the historically entrenched power relationships among markets planners and electoral politics that have made this problem seem so intractable
