Last Best Hope George Packer, 2021-07-01 Acclaimed National Book Award winning author George Packer diagnoses America's descent into a failed state and envisions a path toward overcoming injustices that paralyse and divide. How in a few decades did the United States transform from a broadly prosperous middle class country with relatively healthy institutions and competent leaders to a nation defined by discredited elites, hollowed out institutions and blatant inequalities feared and pitied by our friends, mocked and sabotaged by our adversaries first in the world in Covid cases and deaths and led in recent years by an incompetent authoritarian bigot? *Last Best Hope* is a bracing account of our current crisis and of how a new era of civic revitalization may bring it to an end. Combining reportage with historical narrative, autobiography and political analysis, Packer depicts and assesses the four inadequate narratives that dominate American public life: Libertarian America which imagines a nation of individuals responsible for their own fate and serves the interests of corporations and the wealthy; Cosmopolitan America, the ideology of Silicon Valley and the professional elite which celebrates globalization and leaves many American communities behind; Diverse America which defines citizens as members of large identity groups that have inflicted or suffered oppression; and White America, a shallow nationalism that fears the contamination of non-whites and treachery of coastal elites and poses the greatest threat to democracy in our lifetime. At a time when many fear that the American experiment in self-government may collapse or in Abraham Lincoln's words die by suicide, Packer shows that none of these narratives can sustain American democracy. To point a better way forward, he looks back at previous eras of crisis to discover the resources for invigorating self-government. Combining trenchant social analysis with a vibrant and stinging essayistic voice and a deep knowledge of America's past and present, *Last Best Hope* is an essential contribution to the literature of national self-examination the times demand.

Black Social Television Sherri M. Williams, 2024-12-15 In this book, Sherri Williams explores the digital activism of the Black social TV audience, a subset of Black Twitter. In addition to demands for social equality and shifts in social justice, Williams argues the Black social TV audience advocated for a representation revolution in television, leading to some shows being blocked from airing, some being taken off the air, and others even being revived. Williams positions this activism as an extension of Black people's historic advocacy related to the use of their image, dating back a century to when the NAACP attempted to block screenings of the notoriously racist 1915 film *The Birth of a Nation*. This book details how Black audiences use of social media impacted the way television is watched, developed and produced through digital discourse and activism, primarily on Twitter, now known as X. Williams also demonstrates how Black content directors like Justin Simien and Quinta Brunson used social networks to develop their content and loyalty among audiences to ultimately bypass Hollywood's traditional gatekeepers. Finally, the book touches on contemporary events such as the COVID pandemic and Elon Musk's acquisition of Twitter, which have affected the ways in which Black content creators engage with their content and audience and vice versa. Scholars of television studies, social media

Divine Programming Charlotte E. Howell, 2020 From the mid 90s to the present television drama with religious content has come to reflect the growing cultural divide between white middle America and concentrated urban elites As author Charlotte E Howell argues in this book by 2016 television narratives of white Christianity had become entirely

disconnected from the religion they were meant to represent Programming labeled family friendly became a euphemism for white middlebrow America and developing audience niches became increasingly significant to serial dramatic television Utilizing original case studies and interviews Divine Programming investigates the development writing producing marketing and positioning of key series including 7th Heaven Friday Night Lights Rectify Supernatural Jane the Virgin Daredevil and Preacher As this book shows there has historically been a deep ambivalence among television production cultures regarding religion and Christianity more specifically It illustrates how middle American television audiences lost significance within the Hollywood television industry and how this in turn has informed and continues to inform television programming on a larger scale In recent years upscale audience niches have aligned with the perceived tastes of affluent educated multicultural and importantly secular elites As a result the televised representation of white Christianity had to be othered and shifted into the unreality of fantastic genres to appeal to niche audiences To examine this effect Howell looks at religious representation through four approaches establishment distancing displacement and use and looks at series across a variety of genres and outlets in order to provide varied analyses of each theme
