Fluency and Reading Comprehension in Typical Readers and Dyslexics Readers Simone A. Capellini, Giseli D. Germano, 2018-02-22

Reading involves decoding and comprehension components and to become efficient it requires a large number of cognitive and linguistic processes. Among these are phonological awareness, the alphabetic principle, decoding, fluency, the lexical development and the text comprehension development. The reading comprehension is strongly related with the development of vocabulary, oral language, linguistic skills, memory skills and ability to make inferences and the world experiences of each individual. These processes become important only when the professional needs to deal with students presenting difficulties in learning how to read. The difficulty using the knowledge of conversion rules between grapheme and phoneme to the word reading construction characterizes the dyslexia, which is a specific learning disorder with a neurological source. These difficulties presented by students with dyslexia interfere in their learning process, impairing the learning development. Knowing and following the reading development and its processes as well as obtaining the punctuation of fluency abilities and students comprehension allow us to understand what happens when the student presents difficulties to read. This could help in the identification of learning disabilities and in the development of intervention programs.

Ultimate Guide for SBI Clerk Prelim & Main Exams with PYQs & 100+ Hours Video Course 10th Edition | 5 Online Tests | 4000+ MCQs | Fully Solved Disha Experts, The updated and revised 10th Edition of the book *Ultimate Guide for SBI Clerk Prelim Main Exams* is now a more powerful preparatory material with the addition of PYQs, 100 Hours of Video Lectures, 5 Online Tests. Delivering a Preparatory Course for The Cambridge First Certificate in English Examination by Using the Ingenio E-Learning Platform, 2011-03-24. La publicación de este volumen representa un caso relativamente insólito. Un pequeño grupo de jóvenes investigadores de menos de treinta años convence a un grupo muchísimo numeroso de la misma edad para celebrar en Salamanca la First Conference of Young Researchers on Anglophone Studies. El resultado es deslumbrante. No solo demuestran una gran capacidad organizativa sino que los resultados individuales de las aportaciones científicas son sobresalientes. Este volumen *Current Trends in Anglophone Studies* recoge

una selecci3n revisada de las propuestas presentadas en el Encuentro y gira en torno a una estructuraci3n tripartita cl3sica estudios culturales ling3sticos y literarios En ella caben todos aquellos que se mueven en el campo de los estudios angl3fonos Cada uno de estos campos podr3a haber sido suficiente para celebrar un congreso pero parece razonable que en este tipo de encuentros tengan cabida todos De ese modo este volumen se convierte en un ejemplo de aproximaci3n interdisciplinar a los estudios angl3fonos Desde un punto de vista cuantitativo los estudios culturales ocupan sin duda un espacio menor Sin embargo sobresale la variedad de temas tratados as3 como la internacionalizaci3n de los autores dentro de este apartado Estudiantes espa3oles e italianos acometen estudios relacionados con la m3sica la pintura el cine la traducci3n la marginalidad social o el impacto de las nuevas tecnolog3as en la producci3n art3stica Si no pareciera demasiado atrevido podr3a decirse que estos j3venes estudiosos ir3an m3s all3 de lo que un d3a ya lejano pudieron imaginar Richard Hoggard o Raymond Williams Los estudios aqu3 presentados reflejan sin duda la evoluci3n que la propia sociedad ha experimentado en estos l3timos cincuenta a3os y exploran la relaci3n entre las pr3cticas culturales la vida diaria y los contextos econ3micos pol3ticos e hist3ricos No es de extra3ar que una gran parte de las contribuciones presentadas en este volumen se centren en el estudio de la lengua ya que la demanda del ingl3s se ha incrementado de forma considerable en los l3timos a3os Sobresalen los an3lisis puramente filol3gicos y sobre todo los relacionados con el aprendizaje del ingl3s como segunda lengua Por eso destacan estudios que contemplan rasgos morfol3gicos l3xicos o sint3cticos Sin embargo el mayor n3mero de participaciones hace referencia al ya citado aprendizaje del ingl3s como L2 tanto desde el an3lisis de materiales como desde la pr3ctica oral o escrita Las contribuciones literarias ofrecen una evaluaci3n te3rica formal e interpretativa de distintas tendencias desde perspectivas tanto interdisciplinarias como interculturales Cronol3gicamente los estudios abarcan textos desde el siglo XVIII hasta nuestros d3as con un acento especial en los autores m3s contempor3neos y en el g3nero narrativo En general estos estudios se fijan en textos concretos y los analizan desde perspectivas culturales sociol3gicas o psicol3gicas Pero abundan menos las aproximaciones desde la teor3a literaria desde la t3cnica narrativa o como tal vez cabr3a esperar al tratarse de estudiantes tan j3venes desde la aplicaci3n de las nuevas tecnolog3as Por el contrario se repiten temas como los traumas heredados de la Guerra de Vietnam las cicatrices del 11 de septiembre o los problemas de g3nero En definitiva se trata de una selecci3n de art3culos claramente prometedora que transmite la seguridad de que el futuro de la Filolog3a Inglesa est3 en buenas manos y podr3 experimentar una positiva evoluci3n en los pr3ximos a3os Por todo ello hay que felicitar a todos los participantes individuales y sobre todo a los organizadores del evento y editores de este volumen que han demostrado una enorme capacidad de trabajo y de saber hacer
