

MOTOROLA TALKABOUT

Two-Way Radio User's Guide

KEM-PK14190-90

MR350/351

For More Information

For further information, you may call Motorola at 1-800-638-5119 (U.S. and Canada), or e-mail us at glantint@calcenter.com or visit us on the Internet at www.motorola.com.

Safety and General Information

Important Information on Safe and Efficient Operation

Read This Information Before Using Your Radio.

The information provided in this document supersedes the general safety information in user guides published prior to December 1, 2002.

Transmit and Receive Procedure

Four two-way radio contains a transmitter and a receiver. To control your exposure and ensure compliance with the general population/uncontrolled environment exposure limits, always adhere to the following procedure:

- Transmit no more than 50% of the time.
- To receive calls, release the PTT button.
- To transmit (talk), press the Push to Talk (PTT) button.

Transmitting 50% of the time, or less, is important because the radio generates measurable RF energy exposure only when transmitting (in terms of measuring standards compliance).

Exposure to Radio Frequency Energy

Four Motorola two-way radio complies with the following RF energy exposure standards and guidelines:

- United States Federal Communications Commission, Code of Federal Regulations; 47CFR part 2 sub-part J.
- American National Standards Institute (ANSI)/Institute of Electrical and Electronic Engineers (IEEE) C95. 1-1992.
- Institute of Electrical and Electronics Engineers (IEEE) C95. 1-1999 Edition.
- International Commission on Non-Ionizing Radiation Protection (ICNIRP) 1998.
- Ministry of Health (Canada) Safety Code 6: Limits of Human Exposure to Radiofrequency Electromagnetic Fields in the Frequency Range from 3 KHz to 300 GHz, 1999.
- Australian Communications Authority Radiocommunications (Electromagnetic Radiation—Human Exposure) Standard, 2000.
- ANATEL ANNEX to Resolution No. 303 of July 2, 2002 "Regulation of limitation of exposure to electrical, magnetic and electromagnetic fields in the radio-frequency range between 3 KHz and 300GHz".

is exposure to radio frequency electromagnetic energy is within the guidelines set forth in the above standards, always adhere to the following procedures.

Portable Radio Operation and EME Exposure

Antenna Care

Use only the supplied or an approved replacement antenna. Unauthorized antennas, modifications, or attachments could damage the radio and may violate FCC regulations.

Do NOT hold the antenna when the radio is "IN USE." Holding the antenna affects its effective range.

Body-Worn Operation

To maintain compliance with FCC/Health Canada RF exposure guidelines if you wear a radio on your body when transmitting always place the radio in a Motorola-supplied or approved clip holder, holster, case or body harness for this product. Use of non-Motorola-approved accessories may exceed FCC/Health Canada RF exposure guidelines.

If you do not use one of the Motorola-supplied or approved body-worn accessories and are not using the radio held in the normal use position, **ensure the radio and its antenna are at least 1 inch (2.5 cm) from your body when transmitting.**

Data Operation

If applicable, when using any data features of the radio with or without an accessory cable, **position the radio and its antenna at least one inch (2.5 cm) from the body.**

Approved Accessories

For a list of approved Motorola accessories, visit our Web site at www.motorola.com.

Electromagnetic Interference/Compatibility

Note: Nearly every electronic device is susceptible to electromagnetic interference (EMI) if inadequately shielded, designed or otherwise configured for electromagnetic compatibility. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference; and
2. This device must accept any interference received, including interference that may cause undesired operation.

IC Canada

The term "IC" before the equipment certification number only signifies that the Industry Canada technical specifications were met.

Facilities

To avoid electromagnetic interference and/or compatibility conflicts, turn off your radio in any facility where posted notices instruct you to do so. Hospitals or health care facilities may be using equipment that is sensitive to external RF energy.

Aircraft

When instructed to do so, turn off your radio when onboard an aircraft. Any use of a radio must be in accordance with applicable regulations per airline crew instructions.

Medical Devices – Pacemakers

The Advanced Medical Technology Association recommends that a minimum separation of 8 inches (20 cm) be maintained between a handheld wireless radio and a pacemaker. These recommendations are consistent with the independent research by and recommendations of the U.S. Food and Drug Administration.

People with pacemakers should:

- **ALWAYS** keep the radio more than 8 inches (20 cm) from their pacemaker when the radio is turned ON.
- Not carry the radio in the breast pocket.
- Use the ear opposite the pacemaker to minimize the potential for interference.
- Turn the radio OFF immediately if there is any reason to suspect that interference is taking place.

Medical Devices – Hearing Aids

Some digital wireless radios may interfere with some hearing aids. In the event of such interference, you may want to consult your hearing aid manufacturer to discuss alternatives.

Medical Devices – Other

If you use any other personal medical device, consult the manufacturer of your device to determine if it is adequately shielded from RF energy. Your physician may be able to assist you in obtaining this information.

Safety and General Use While Driving

Check the laws and regulations regarding the use of radios in the area where you drive, and always obey them. If you do use your radio while driving, please:

- Give full attention to driving and to the road.
- Use hands-free operation, if available.
- Pull off the road and park before making or answering a call if driving conditions so require.

The use of a two-way radio while engaged in activities requiring concentration may cause distraction or otherwise impair your ability to safely participate in such activities. Always use technology safely.

Do not place a portable radio in the area over an air bag or in the air bag deployment area. Air bags inflate with great force. If a portable radio is placed in the air bag deployment area and the air bag inflates, the radio may be propelled with great force and cause serious injury to occupants of the vehicle.

Potentially Explosive Atmospheres

Turn off your radio prior to entering any area with a potentially explosive atmosphere. Only radio types that are especially qualified should be used in such areas as "Intrinsically Safe." Do not remove, install or charge batteries in such areas. Sparks in a potentially explosive atmosphere can cause an explosion or fire resulting in bodily injury or even death.

Note: The areas with potentially explosive atmospheres referred to above include fueling areas such as below decks on boats, fuel or chemical transfer or storage facilities, areas where the air contains chemicals or particles (such as grain, dust or metal powder) and any other area where you would normally be advised to turn off your vehicle engine. Areas with potentially explosive atmospheres are often—but not always—posted.

Blasting Caps and Areas

To avoid possible interference with blasting operations, turn off your radio when you are near electrical blasting caps, in a blasting area, or in areas posted "Turn off two-way radios." Obey all signs and instructions.

Operational Cautions

Antennas

Do not use any portable radio that has a damaged antenna. If a damaged antenna comes into contact with your skin, a minor burn can result.

Batteries

All batteries can cause property damage and/or bodily injury such as burns if a conductive material—like jewelry, keys or beaded chains—touch exposed terminals. The conductive material may complete an electrical circuit (short circuit) and become quite hot. Exercise care in handling any charged battery, particularly when placing it inside a pocket, purse or other container with metal objects.

Exercise care when removing NiMH or AA batteries. Do not use sharp or conductive tools to remove either of these batteries.

Battery Charger Safety Instructions:

Save these instructions

1. Do not expose the charger to rain or snow.
2. Do not operate or disassemble the charger if it has received a sharp blow, or has been dropped or damaged in any way.
3. Never alter the AC cord or plug provided with the unit. If the plug will not fit the outlet, have the proper outlet installed by a qualified electrician. An improper condition can result in a risk of electric shock.
4. To reduce the risk of damage to the cord or plug, pull the plug rather than the cord when disconnecting the charger from the AC receptacle.
5. To reduce the risk of electric shock, unplug the charger from the outlet before attempting any maintenance or cleaning.
6. Use of an attachment not recommended or sold by Motorola may result in a risk of fire, electric shock or personal injury.
7. Make sure the cord is located so it will not be stepped on, tripped over or subjected to damage or stress.
8. An extension cord should not be used unless absolutely necessary. Use of an improper extension cord could result in a risk of a fire and/or electric shock. If an extension cord must be used, make sure that:
 - The pins on the plug of the extension cord are the same number, size and shape as those on the plug of the charger.

 Number 1 2 Books and Pamphlets Including Serials and Contributions to Periodicals January December Wireless World
and Radio Review , 1978 **The Best of 2600, Collector's Edition** Emmanuel Goldstein, 2009-01-26 In response to popular
 demand Emmanuel Goldstein aka Eric Corley presents a spectacular collection of the hacker culture known as 2600 The
 Hacker Quarterly from a firsthand perspective Offering a behind the scenes vantage point this book provides devoted fans of
 2600 a compilation of fascinating and controversial articles Cult author and hacker Emmanuel Goldstein has collected some
 of the strongest most interesting and often provocative articles that chronicle milestone events and technology changes that
 have occurred over the last 24 years He divulges author names who were formerly only known as anonymous but have
 agreed to have their identity revealed The accompanying CD ROM features the best episodes of Goldstein s Off the Hook
 radio shows Note CD ROM DVD and other supplementary materials are not included as part of eBook file Definitive
Pontiac GTO Guide David Bonaskiewich, 2018-09-14 p p1 margin 0 0px 0 0px 0 0px font 12 0px Arial After a
 brainstorming session Pontiac executives and engineers decided to slot a 389 ci V 8 into the intermediate sized Tempest
 against GM rules and the GTO was created Little did they know what a profound impact that decision would make The GTO
 would become a sensation and later was recognized as the first muscle car of the 1960s Visionaries Pete Estes John
 DeLorean and other key Pontiac executives knew the youth market was waiting for a bold lightweight sporty car When their

staff toyed with the concept of putting the large V 8 in the car Pontiac executives jumped on the idea to meet that perceived market demand Pontiac had a high performance street car that could light up its tires and outperform the vast majority of the cars on the road It also reshaped Pontiac s image of a company producing stodgy lumbering full size cars into a high performance youth brand Pontiac expert and long time writer David Bonaskiewich delves deep into the GTO model and its history bringing the equipment and options of this iconic muscle car into full focus He reveals the hardware under the sheet metal the V 8 engines manual and automatic transmissions rear differentials interior options color codes and so much more When the GTO was released in 1964 it was offered as a unique performance package to the Tempest and high performance enthusiasts stood up and took notice Examined are the GTO s 4 barrel 389 with dual exhaust 3 speed floor shifter stiffer suspension limited slip differential and heavy duty cooling system The 1965 GTO was restyled with more interior room being added and the renowned 389 Tri Power engine joined the lineup cranking out 360 hp By 1966 the GTO was a runaway success Pontiac made the GTO its own model and it featured a sleeker Coke bottle styling A convertible joined the hardtop and a pillared coupe also joined the lineup The 1967 Pontiac GTO was arguably one of most the superbly styled models ever with a wide range of engines and high performance hardware All of these important upgrades advancements and model evolutions are covered in exceptional detail The GTO stands alone in the annals for muscle car history Not only did Pontiac create a classic muscle car it created the muscle car blueprint that other Detroit manufacturers followed in the years to come A glossy surface overview of this iconic model does not do it justice If you have been searching for the in depth nuts and bolts guide to GTO equipment and options you need look no further p p1 margin 0 0px 0 0px 0 0px 0 0px font 12 0px Arial

Commerce Business Daily ,1998-07 Federal Trade Commission Decisions United States. Federal Trade Commission,1968 **Two-Way Radios and Scanners For Dummies** H. Ward Silver,2011-03-01 Discover a fun new hobby with helpful possibilities Get directions talk to folks overseas or find out whether the fish are biting Want to check out the morning news in London help out in emergencies or tune in to the big race Two way radios open up a world of possibilities literally This handy guide tells you about the equipment you need fills you in on radio etiquette shows you how to stay legal and gives you lots of cool ideas for family friendly radio activities Discover how to Use the right radio lingo Choose and operate different types of radios Get a license if you need one Communicate in emergencies Program a scanner Tune in to sporting events Library Journal Melvil Dewey,Richard Rogers Bowker,L. Pylodet,Charles Ammi Cutter,Bertine Emma Weston,Karl Brown,Helen E. Wessells,1972 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **SDL 2003: System Design** Rick Reed,Jeanne Reed,2003-08-03 This volume contains the papers presented at the 11th SDL Forum Stuttgart As well as the papers the 11th SDL Forum also hosted a system design competition sponsored by Solinet with a cash prize for the best design This follows a similar competition at the SAM 2002 workshop papers published in LNCS

2599 The winning entry from SAM 2002 is described in the last paper in this volume The SDL Forum was first held in 1982 and then every two years from 1985 Initially the Forum was concerned only with the Specification and Description Language first standardized in the 1976 Orange Book of the International Telecommunication Union ITU From the start this graphical CEFSM communicating extended finite state machines notation was used both to describe the implementation of systems and to specify systems especially protocol systems in standards In the early days both types of description were quite informal though specifications were certainly more formal than the main alternative natural language with some ad hoc figures Implementations were usually written in assembly language which is at too low a level to reason well about the interaction between communicating agents within a system In this case the notation provided an intermediate description that gave an overview of how the implementation worked and often the actual logical development was done at the graphical level with hand coding of that description

Immerse yourself in heartwarming tales of love and emotion with Crafted by is touching creation, Experience Loveis Journey in **Motorola Radio Programming Manual** . This emotionally charged ebook, available for download in a PDF format (*), is a celebration of love in all its forms. Download now and let the warmth of these stories envelop your heart.
