Spoiled Summer Kim Lee, 2025-09-12 Summer Kim Lee examines how contemporary Asian American artists challenge expectations that their work

should repair the wounds of racial trauma Forgetfulness Francis O'Gorman,2017-10-05 Forgetfulness is a book about modern culture and its profound rejection of the past It traces the emergence in recent history of the idea that what is important in human life and work is what will happen in the future Francis O Gorman shows how forgetting has been embraced as a requirement for modern existence and how our education as well as life with fast moving technology further disconnects us from our pasts But he also examines the cultural narratives that urge us to resist our collective amnesia O Gorman argues that such narratives in rich but oblique ways indicate our guilt about modernity's great unmooring from history Forgetfulness asks what the absence of history does to our sense of purpose as well as what belonging both to time and place might mean in cultures without a memory It is written in praise of the best achievement and deeds of the past but is also an expression of profound anxiety about what forgetting them is doing to us The Collected Works of Edward Schillebeeckx Volume 9 Edward Schillebeeckx,2014-09-25 The Church with a Human Face A New Expanded Theology of Ministry elaborates historically and theologically the main line of his argument It further includes reactions and reflections on criticism he received The work outlines the evolution of ecclesiastical office starting with Jesus Christ and his messianic community followed by a description of the practice and theology of ministry in the early Christian communities and tracing different forms of ministry in the history of the Church Of particular interest is the section on the Complaints of the People which deals with the discontent of many connected with the position of women and married priests As long as women are not allowed to participate fully in the decisions of the Church Schillebeeckx argues they will not be liberated and their complaints will remain a fundamental charge that challenges the church **Selected Essays on Opera by Ulrich Weisstein** ,2006-01-01 Ulrich Weisstein an international authority in the fields of comparative literature and comparative arts has been a pioneer paving the way for present day intermedia studies Among his broad intermedial interests opera has always held a central place For the first time this volume makes available his major contributions to opera criticism in compact form thus meeting a serious scholarly demand The necessarily stringent selection of essays from Professor Weisstein's large output on opera reflecting fifty years of involvement with the genre is primarily governed by the wish to present texts that are representative of their author's work and at the same time are unlikely to be readily available through other channels The fourteen essays collected are arranged in chronological order some of them showing Ulrich Weisstein as an initiator of librettology others tracing adaptive processes extending from textual sources to final operas or investigating writer composer collaborations Further topics are satirical reflections on operatic activities in early eighteenth century Italy and practices of opera censorship artist operas or definitions of romantic and epic opera The essays are written in an accessible essentially non technical language and are expected to make both a profitable and a pleasurable reading for literary scholars as well as musicologists and general art lovers *Kyoto 2016 - Anima Mundi in Transition: Cultural, Clinical & Professional Challenges* Emilija Kiehl,Margaret Klenck, The Congress in Kyoto Japan was the beginning of a new

era in the life of the IAAP for the first time in its history this creative and stimulating triennial gathering of Jungian analysts from all over the world took place in Asia And with it scientific and cultural dialogue between Jungians from West and East enters a new dimension As is evident in these pages there are ever more mutually enriching developments emerging both in theory and in clinical work from culturally and often politically different points of view
