**The Rise and Fall of Television Journalism** Steven Barnett, 2011-11-08 This book traces the history of television journalism in Britain from its austere roots in the BBC's post war monopoly to the present day plethora of 24 hour channels and celebrity presenters It asks why a medium whose thirst for pictures personalities and drama makes it some believe intrinsically unsuitable for serious journalism should remain in the internet age the most influential purveyor of news Barnett compares the two very different trajectories of television journalism in Britain and the US arguing that from the outset a rigorous statutory and regulatory framework rooted in a belief about the democratic value of the medium created and sustained a culture of serious responsible accurate and interrogative journalism in British television The book's overarching thesis is that despite a very different set of historical regulatory and institutional

practices there is a very real danger that Britain is now heading down the same road as America      **The Writers Directory** ,2013      **The Europa World Year Book 2003** Europa Publications,2003 First published in 2003 Routledge is an imprint of Taylor Francis an informa company      Signal ,1999      *Australia Report* ,1995      The O.C.L.T.
