Chitalu,2012-04-05 Knowledge of how to acquire money riches and wealth has unlimited domain of validity but this obvious truth which is a common sense is not always common to many people and this observation is non trivial This is the very reason why I have written this book to help make it clearer for anyone to decipher how few people who are rich ever got it right Anyone utterly anyone with the zeal for self enrichment can acquire lots of money riches and wealth because it is not the size of the dog in the fight but the size of the fight in the dog that matters It is you yourself who can acquire lots of money riches and wealth and never let it to someone else because they will let you down So learn from this book the facts of life and living that I have presented and with your instinctive belief in yourself you will invoke in you the zeal to acquire money riches and wealth There is a right way to follow if you want to acquire the money riches and wealth that you desire The right way will empower you to become a millionaire billionaire or trillionaire and live your life to higher level of self actualisation and you will join the list of rich people in your village town city country or in the world You can turn things round from despair to prosperity and you can climb up to your desired highest level of your financial economic and social status in your society only with your unshakeable belief in yourself *July 15-August 19, 1919* ,1919 **The Protective Question Abroad...** John Lord Hayes,1870 **The Art of public speaking** J. Berg Esenwein,2018-12-27 Training in public speaking is not a matter of externals primarily it is not a matter of imitation fundamentally it is not a matter of conformity to standards at all Public speaking is public utterance public issuance of the man himself therefore the first thing both in time and in importance is that the man should be and think and feel things that are worthy of being given forth Unless there be something of value within no tricks of training can ever make of the talker

anything more than a machine albeit a highly perfected machine for the delivery of other men's goods So self development is fundamental in our plan The second principle lies close to the first The man must enthrone his will to rule over his thought his feelings and all his physical powers so that the outer self may give perfect unhampered expression to the inner It is futile we assert to lay down systems of rules for voice culture intonation gesture and what not unless these two principles of having something to say and making the will sovereign have at least begun to make themselves felt in the life Return of the Railroads to Private Ownership United States.
