The Ordination of a Tree Susan M. Darlington, 2012-11-15 Thai Buddhist monks wrap orange clerical robes around trees to protect forests Ordaining a tree is a provocative ritual that has become the symbol of a small but influential monastic movement aimed at reversing environmental degradation and the unsustainable economic development and consumerism that fuel it This book examines the evolution of this movement from the late 1980s to the present exploring the tree ordination and other rituals used to resist destructive national projects Susan M Darlington explores monks motivations showing how they interpret their lived religion as the basis of their actions and provides an in depth portrait of activist monk Phrakhru Pitak Nanthakhun The obstacles monks face including damage to their reputations arrest and even assassination reveal the difficulty of enacting social justice Even the tree ordination itself must now withstand its appropriation for state projects Despite this monks have gone from individual action to a loosely allied movement that now works with nongovernmental organizations This is a fascinating firsthand account of engaged Buddhism

Objects of Worship in South Asian Religions Knut A. Jacobsen, Mikael Aktor, Kristina Myrvold, 2014-08-27 Objects of worship are an aspect of the material dimension of lived religion in South Asia The omnipresence of these objects and their use is a theme which cuts across the religious traditions in the pluralistic religious culture of the region Divine power becomes manifest in the objects and for the devotees they may represent power regardless of religious identity This book looks at how objects of worship dominate the religious landscape of South Asia and in what ways they are of significance not just from religious perspectives but also for the social life of the region The contributions to the book show how these objects are shaped by traditions of religious aesthetics and have become conceptual devices woven into webs of religious and social meaning They demonstrate how the objects have a social
