Organised Crime in European Businesses Ernesto U. Savona, Michele Riccardi, Giulia Berlusconi, 2016-07-28 The infiltration of organised crime in the legitimate economy has emerged as a transnational phenomenon This book constitutes an unprecedented study of the involvement of criminal groups in the legitimate economy and their infiltration in legal businesses and is the first to bridge the research gap between money laundering and organised crime It analyses the main drivers of this process explaining why how and where infiltration happens Building on empirical evidence from the Netherlands Slovenia Spain Sweden the UK Ireland Italy France and Finland Organised Crime in European Businesses is divided into four parts Part I explores the infiltration of legitimate businesses to conceal and facilitate illicit trafficking Part II examines the infiltration of legitimate businesses to develop fraud

schemes Part III focuses on the infiltration of legitimate businesses to control the territory and influence policy makers Part IV concludes by considering the research and policy implications in light of these findings Bringing together leading experts and detailed case studies this book considers the infiltration of organised crime in legitimate business around Europe It is an ideal resource for students and academics in the fields of criminology economics and sociology as well as private sector practitioners public officials and policy makers European Organised Crime Scenarios for 2015 Tom Vander Beken, 2006 Policy makers no longer focus on repressive aspects of organised crime alone but want to be informed about coming challenges and threats to allow them to take appropriate preventive action and target their reactive response better For that reason there is a growing demand to change the traditional assessments into analyses that include more prospective elements about current and potential future organised crime situations to identify specific risks or threats to society The book outlines a methodology to perform analyses of long term threats of organised crime and scenario studies and applies this on four case studies at two different levels three studies at Member State level Belgium Slovenia and Sweden and one at the European Union level In a last chapter conclusions and recommendations about the method and its applications are presented The developed methodological tool and the scenarios are intended as a guide for action and consideration for all actors involved in the fight against organised crime **The Containment of Organised Crime and Terrorism** Cyrille J.C.F. Fijnaut, 2016-11-21 This unique volume collects articles and contributions to edited books published throughout his distinguished career by Professor Cyrille Fijnaut one of the world's leading experts in the fields of organised crime security and criminology It makes clear what issues the author systematically explored over the years and how he helped to shape the fields in which he has worked and continues to work The texts reflecting the author's profound understanding of these complex fields and wealth of experience on a practical level are presented according to topic In addition the volume offers English translations of seminal articles published originally in Dutch thus making these important texts accessible to international scholars for the first time The volume thus constitutes a unique and indispensable resource for scholars and practitioners inside and outside the Netherlands Measuring Organised Crime in Europe Tom Beken, 2004 Recent years have been characterised by growing awareness among European member states about serious shortcomings to the way organised crime is measured and assessed Currently organised crime reports primarily generate descriptive analyses of a past situation based on law enforcement data and do not always provide the necessary information for proactive and preventive policy strategies Therefore an EU Action Plan has been issued to develop a more future oriented and risk based methodology for the measurement of organised crime and to convert the traditional organised crime situation reports into strategic reports for planning purposes This book is the outcome of two studies undertaken by a team composed of Belgian Italian and Swedish researchers for the European Commission It presents an overview of current practices in the measurement of organised crime in Europe and includes a discussion about the concept and the assessment of the impact of

the phenomenon Further the feasibility of the implementation of the existing EU Action Plan was studied and evaluated As a result of applied research Measuring Organised Crime in Europe provides an in depth and comparative analysis of current practice in drafting organised crime reports across and by the EU and offers new ideas to improve their quality

Redefining Organised Crime: A Challenge for the European Union? Stefania Carnevale,Serena Forlati,Orsetta Giolo,2017-12-28 The definition of organised crime has long been the object of lively debate at national and international level Sociological and legal analysis has not yet led to one definitive answer to the question of what exactly organised crime means Nonetheless many instruments adopted both at international and national levels set forth special legal regimes designed to target criminal groups featuring a stable organisation which are perceived as particularly dangerous to society Therefore identifying the notion of organised crime is crucial to establishing the scope of any legal instrument specifically designed for combating it The aim of this book is to

reassess the scope the effectiveness and the overall coherence of existing definitions of organised crime and to identify any need for a reconsideration of these definitions specifically with reference to the EU legal order It will be of interest to academics practitioners and legislators working in the sphere of EU criminal law and of organised crime more generally

initiatives from the institutions responsible the actual framing and implementation of the Area of Freedom Security and Justice AFSJ suffers from a failure to properly consider the theoretical implications of providing the good of criminal justice at the EU level Written shortly before the recent entry into force of the Lisbon Treaty EU Criminal Law and Justice comprises a full overview of the key legal developments and debates and includes a user friendly guide to the institutional changes contained in the Treaty This timely book will be of interest to both undergraduate and postgraduate students as well as to legal practitioners and policy makers at national and EU levels
