

Oracle® Database

Client Quick Installation Guide

12c Release 1 (12.1) for Microsoft Windows (32-Bit)

E56927-01

September 2014

This guide describes how to quickly install the Oracle Database Client product on 32-bit Windows systems. It includes information about the following:

1. [Review Information About this Guide](#)
2. [Hardware Requirements](#)
3. [Software Requirements](#)
4. [Creating Oracle Home User](#)
5. [Operating System Groups for Oracle Database Client Installations](#)
6. [Remote Desktop Services](#)
7. [Installation Requirements for Web Browsers](#)
8. [Default Share Configuration Requirement](#)
9. [Install the Oracle Database Client Software](#)
10. [What's Next?](#)
11. [Documentation Accessibility](#)

1 Review Information About this Guide

Note: This guide describes how to install Oracle Database Client on a system that does not have any Oracle software installed on it. If there is an existing Oracle software installation on this system, see *Oracle Database Client Installation Guide for Microsoft Windows* for more detailed installation instructions.

This guide describes how to complete a default installation of Oracle Database Client in a new Oracle home directory. It describes how to perform one of the following installation types:

- **Instant Client:** Installs only the shared libraries required by Oracle Call Interface applications that use the Instant Client feature. This installation type requires much less disk space than the other Oracle Database Client installation types. Included in the Instant Client installation is Instant Client Light. You may want to use this version of Instant Client if your applications generate error messages in American English only. The advantage of using Instant Client Light is that it has a much smaller footprint than regular Instant Client. Hence, your applications use less memory.
