Respect and Responsibility in Pacific Coast Indigenous Nations E. N. Anderson,Raymond Pierotti,2022-10-12 This book examines ways of conserving managing and interacting with plant and animal resources by Native American cultural groups of the Pacific Coast of North America from Alaska to California These practices helped them maintain and restore ecological balance for thousands of years Building upon the authors and others

previous works the book brings in perspectives from ethnography and marine evolutionary ecology The core of the book consists of Native American testimony myths tales speeches and other texts which are treated from an ecological viewpoint The focus on animals and in depth research on stories especially early recordings of texts set this book apart The book is divided into two parts covering the Northwest Coast and California It then follows the division in lifestyle between groups dependent largely on fish and largely on seed crops It discusses how the survival of these cultures functions in the contemporary world as First Nations demand recognition and restoration of their ancestral rights and resource management practices

[A Puget Sound Orca in Captivity](#) Sandra Pollard,2019-01-14 On August 8 1970 the Southern Resident orcas of Puget Sound were herded into Penn Cove on Whidbey Island by explosives spotter planes and speedboats in a coordinated effort to capture seven young whales Between 1964 and 1976 dozens of these now endangered orcas were torn from their home and sent to marine parks around the globe Just over a decade later all but one had died This lone survivor is Tokitae also known as Lolita and she spent most of her life performing at the Miami Seaquarium For twenty years the Orca Network has called for her release and now the indigenous Lummi Nation People of the Sea have joined the fight Author Sandra Pollard chronicles the extraordinary effort to bring Tokitae home

The Last Sunset in the West Natalie Sanders,2024-07-04 Fully revised edition with updated information on the surviving members of the orca pod In 2014 marine biologist Dr Natalie Sanders joined the crew of the research vessel Silurian to seek out Britain's West Coast Community of orca and study them before we lose them forever Though this orca pod has delighted scientists and whale watchers for years we still know relatively little about them and what we do know comes mostly from citizen science and chance encounters But what is abundantly clear is that pollution entanglement military sonar and climate change continue to have an enormous impact on whales and dolphins and other marine life throughout the world's oceans This book is a must read for anyone interested in the marine world in this age of climate change A captivating yet poignant account it takes the reader from the Western Isles of Scotland to Vancouver Island and elsewhere It also delves deep into the history of our relations with these beautiful and sentient creatures to explain what their loss means and how we can avoid similar tragedies in the future

The Killer Whale Who Changed the World Mark Leiren-Young,2016-09-13 The fascinating and heartbreaking account of the first publicly exhibited captive killer whale a story that forever changed the way we see orcas and sparked the movement to save them Killer whales had always been seen as bloodthirsty sea monsters That all changed when a young killer whale was captured off the west coast of North America and displayed to the public in 1964 Moby Doll as the whale became known was an instant celebrity drawing 20 000 visitors on the one and only day he was exhibited He died

within a few months but his famous gentleness sparked a worldwide crusade that transformed how people understood and appreciated orcas Because of Moby Doll we stopped fearing killers and grew to love and respect orcas Published in Partnership with the David Suzuki Institute **Outside Magazine's Adventure Guide to the Pacific Northwest** ,1997
