Organizational Innovation Communities Author Bastian Bansemir Mar 2013:

Organizational Innovation Communities Bastian Bansemir, 2013-02-15 Open source community and crowd innovations have not only drastically changed the way products and services are developed but also the way we work and live. Yet organizations of all kinds may they be small or large globalized or local etc still struggle to effectively adapt to this social however technology enabled trend. This work sheds light on community based innovation development within organizations i.e. organizational innovation communities. Three major questions are tackled: How to introduce organizational innovation communities or how to build communities from scratch? How to manage organizational innovation communities or can we manage creativity? How to foster employee engagement or how to turn ordinary employees into innovation hot spots? Based on qualitative as well as quantitative research methods the author derives in depth and surprising insights as well as hands on recommendations to speed up improve and foster innovation development. *Knowledge Exchange in Intra-Organizational Innovation Communities* Anne-Katrin Neyer, Kathrin M. Moeslein, Bastian Bansemir, 2012

Many aspects in the area of designing platforms for intra organizational innovation communities are not well understood. In this article we examine the impact of technologically induced psychological factors on knowledge exchange in such communities. Using two experimental pretest posttest experiments we find that the implementation of i) technologically induced self efficacy expressed by a hurra message and ii) technologically induced positive affect expressed by playing some 30 seconds of rock n roll music in the design of the platform results in an influential increase of knowledge exchange. Importantly the studies suggest that the integration of technologically induced self efficacy leads to a higher extent of knowledge exchange than technologically induced positive affect. The implications of these results for future research and practice as well as for the design of a platform for such communities are discussed. **Archetype Participants of Organizational Innovation Communities**

Anke Wendelken, 2015 **Innovation Communities** Klaus Fichter, Severin Beucker, 2012-01-03 Self organising networks have become the dominant innovators of complex technologies and radical innovation. The growing need for co operation to ensure innovation success calls for a broader understanding of what makes innovation projects successful and requires new concepts. The book introduces the new concept of innovation communities defining them as informal networks of like minded individuals who act as innovation promoters or champions. These key figures come from various companies and organisations and will team up in a project related fashion jointly promoting a certain innovation product or idea either on one or across different levels of an innovation system. The publication presents findings from surveys that demonstrate that networks of champions are a success factor in radical innovation. Five case studies of noteworthy innovation projects illustrate why the collaboration of champions can make innovation projects more successful. Furthermore the book presents hands on methods and includes best practice cases and guidelines on how to develop innovation communities. This publication comprises empirical findings and practical experiences that are valuable for the following groups in particular: Entrepreneurs

Innovation R Innovation and strategy consultants Innovation and start up intermediaries Innovation researchers Government officials and politicians responsible for R D and innovation programmes and funding
