Handbook of Behavioural Family Therapy Ian Falloon, 2015-07-30 First published in 1988

behavioural family therapists worked in an area that had greatly changed since its inception over 20 years before Growing out of the pioneering work of Gerald Patterson Robert Paul Liberman and Richard Stuart whose backgrounds vary from psychology to psychiatry to social work behavioural family therapy BFT had evolved to encompass systems theory considerations of the therapeutic alliance as well as approaches to accounting for and restructuring family members subjective experiences through cognitive strategies As BFT had not been the brain child of any one charismatic innovator but rather of a wide array of clinicians and researchers developing and rigorously testing hypotheses it is fitting that this much needed summation of the field was a collaborative product of an array of well established practitioners of the time They discuss in Part 1 of the book the theoretical parameters of BFT focusing on modular behavioural strategies the indications for therapy assessment of family problems pertinent issues arising in clinical practice and approaches to the problem of resistance to change Contributors to Part 2 then apply theory to such clinical situations as parent training and helping families cope with patients suffering from developmental disabilities alcoholism schizophrenia senile dementia as well as anxiety obsessive compulsive and depressive disorders Specific attention is also given to acute inpatient and primary health care settings While BFT had already proved quite effective in treating a great number of family problems it was only in its infancy at the time of writing As Falloon says in his overview all exponents of the method are constantly involved with the process of refinement each clinician is a researcher each family member is a research subject and each researcher is contributing to clinical advancement This openness in combination with a willingness to modify sacred tenets of behaviourism while adapting proven techniques from other family therapies made this title a landmark in its field As such it was not only of interest to all clinicians and researchers with a behavioural slant but also to all family therapists who wished to challenge themselves to develop an integrative approach

transmission **Family and Marital Psychotherapy (Psychology Revivals)** Sue Walrond-Skinner, 2014-01-09 The family therapy movement had from its earliest days been marked by a surge of creativity and by the energy of the new ideas it generated Originally published in 1979 the authors of the original essays collected together in this book felt that the time had come to take stock and to scrutinise more carefully the meaning and effectiveness of this new psychotherapeutic method within the particular conditions prevailing Britain at the time The book focuses on issues relating to theory research and practice and while concentrating on three sub specialities of family therapy family group therapy marital therapy and network therapy the papers cover a wide variety of topics In addition to papers by practitioners and teachers of family therapy two contributions are included from the field of academic psychology Before this much of the family therapy literature had been presented in the form of an uncritical eulogy of the method The special interest of this book lies in its attempt to bring a critical perspective to bear upon family therapy and its application Moreover in contrast with much that had been previously written the authors sought to make a distinctive contribution to the development of family therapy through their effort to integrate rather than to polarise what is valuable within a variety of different theoretical and empirical approaches

Understanding Ruptured Mother-Daughter Relationships Khara Croswaite Brindle, 2023-06-05 How can therapists feel prepared to address the possible treatment focus of ruptured maternal relationships in the therapeutic space Depending on the client the goal of therapy may be to repair an estranged maternal relationship or to finalize parental estrangement and redefine themselves This book focuses on identifying the estrangement cycle for clinical application with adult women clients by mental health professionals It provides clinical tools to address the challenges of estrangement and adjustment needs of these clients within the spheres of personal identity relationships and grief and loss to promote personal growth and healing in the therapeutic space It also engages readers by illustrating different stages of estrangement through client vignettes and by providing practical tools for mental health professionals to create a supportive and nonjudgmental space With this resource clinicians and clients will feel better equipped with the skills needed to tackle the emotional rollercoaster that is Estrangement Energy The companion resource website can be found here <https://www.estrangementenergycycle.com>
