New Services in a Global Economy 2nd Edition is devoted to providing a better understanding and better management of all
of the causes and consequences of change that have technological implications in and around our global organizations This
text is a unique original contribution and represents a significant alternative to the collection of chapters written by others
The second edition has new cases with a few classics from the first edition that have been retained in response to reader
feedback The key subjects that are included have been significantly updated and treated in greater depth The number of
chapters has been reduced from 12 to 10 so it is easy to adapt to almost any course or training on the subject in any
discipline or to any audience This exceptionally informative book provides a broad perspective on how technological change
can be effectively managed in modern organizations The text explains the conceptual frameworks supported by new and
original case studies for start up companies like Askmen com the complex challenges of managing international technology
based companies like NexPress a joint venture of Kodak and Heidelberg in the digital printing industry and corporate
sustainability using innovative new product technologies illustrated by the case of Evinrude s launch of the E tec outboard
motor John E Ettlie s three decades in the field of innovation as an instructor and researcher bring an exceptional

perspective to this subject His text is unique in its discussion of how technology has transformed the service sector Few books on technology make the distinction between new offerings in manufacturing and the service sector which is emphasized in this text *Computerworld* ,1981-06-08 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network *Network World* ,1997-02-03 For more than 20 years Network World has been the premier provider of information intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations Readers are responsible for designing implementing and managing the voice data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce
