The Orthodox Christian World Augustine Casiday, 2012-08-21. Over the last century unprecedented numbers of Christians from traditionally Orthodox societies migrated around the world. Once seen as an oriental or eastern phenomenon, Orthodox Christianity is now much more widely dispersed and in many parts of the modern world one need not go far to find an Orthodox community at worship. This collection offers a compelling overview of the Orthodox world, covering the main regional traditions of Orthodox Christianity and the ways in which they have become global. The contributors are drawn from the Orthodox community worldwide and explore a rich selection of key figures and themes. The book provides an innovative and illuminating approach to the subject, ideal for students and scholars alike.

Eclecticism in Late Medieval Visual Culture at the Crossroads of the Latin, Greek, and Slavic Traditions Maria Alessia Rossi, Alice Isabella Sullivan, 2021-11-22. This volume builds upon the new worldwide interest in the global Middle Ages. It investigates the prismatic heritage and eclectic artistic production of Eastern Europe between the fourteenth and seventeenth centuries while challenging the temporal and geographical parameters of the study of medieval Byzantine, post-Byzantine and early modern art. Contact and interchange between primarily the Latin, Greek and Slavic cultural spheres resulted in local assimilations of select elements that reshaped the artistic landscapes of regions of the Balkan Peninsula, the Carpathian Mountains and further north. The specificities of each region and in modern times politics and nationalistic approaches have reinforced the tendency to treat them separately, preventing scholars from questioning whether the visual output could be considered as an expression of a shared history. The comparative and interdisciplinary framework of this volume provides a holistic view of the visual culture of these regions by addressing issues of transmission and appropriation as well as notions of cross-cultural contact while putting on the global map of art history the eclectic artistic production of Eastern Europe.

God and the EU Jonathan Chaplin, Gary Wilton, 2015-12-14. The current political, economic and financial crises facing the EU reveal a deeper cultural, indeed spiritual, malaise: a crisis in the soul of Europe. Many observers are concluding that the soul of Europe cannot be restored to health without a new appreciation of the contribution of religion to its past and future and especially that of its hugely important but widely neglected Christian heritage, which is alive today even amidst advancing European secularization. This book offers a fresh, constructive and critical understanding of Christian contributions to the origin and development of the EU from a variety of theological and national perspectives. It explains the Christian origins of the EU, documents the various ways in

which it has been both affirmed and critiqued from diverse theological perspectives offers expert theologically informed assessments of four illustrative policy areas of the EU trade finance environment science and also reports on the place of religion in the EU including how religious freedom is framed and how contemporary religious including Muslim actors relate to EU institutions and vice versa The book fills a major gap in the current debate about the future of the European project and will be of interest to students and scholars of religion politics and European studies

The Efficacy of the Exorcistic Prayers in the Athonite Manuscript of Xiropotamou 98, (2260) 16 Jesmond Micallef, 2023-01-06 The Covid 19 pandemic in the year 2020 exposed a fragility of human consciousness at all latitudes In the face of unforeseen threats we are unable to react or we become slaves to irrational instincts which can lead to hysterical and obsessive behaviours precisely those described by the diabolical possessions against which the Church has been fighting for two thousand years since Christ entrusted her with power to defeat the devil Moreover the activity of exorcism is described in the Gospels as the main manifestation of the divine power of the Lord Jesus which released from him for the salvation of men This book presents for the first time an edition of the Xiropotamou manuscript 98 preserved at the Library of the Xiropotamou monastery of Mount Athos in Greece It cushions the liturgical exorcistic prayer of the manuscript between a biblical study of this ancient activity of the Church and an overview of the Rite of Exorcism in Orthodox usage in Early Middle and Late Byzantium
