Weiser a pioneering innovator whose legacy looms over the tech industry s quest to connect everything and who hoped for

something better When developers and critics trace the roots of today's Internet of Things our smart gadgets and smart cities they may single out the same creative source Mark Weiser 1952-99 the first chief technology officer at Xerox PARC and the so-called father of ubiquitous computing But Weiser who died young at age 46 in 1999 would be heartbroken if he had lived to see the ways we use technology today As John Tinnell shows in this thought-provoking narrative Weiser was an outlier in Silicon Valley A computer scientist whose first love was philosophy he relished debates about the machine's ultimate purpose Good technology Weiser argued should not mine our experiences for saleable data or demand our attention rather it should quietly boost our intuition as we move through the world Informed by deep archival research and interviews with Weiser's family and colleagues *The Philosopher of Palo Alto* chronicles Weiser's struggle to initiate a new era of computing Working in the shadows of the dot-com boom Weiser and his collaborators made Xerox PARC headquarters the site of a grand experiment Throughout the building they embedded software into all sorts of objects coffee pots pens energy systems ID badges imbuing them with interactive features Their push to integrate the digital and the physical soon caught on Microsoft's Bill Gates flagged Weiser's *Scientific American* article *The Computer for the 21st Century* as a must-read Yet as more tech leaders warmed to his vision Weiser grew alarmed about where they wished to take it In this fascinating story of an innovator and a big idea Tinnell crafts a poignant and critical history of today's Internet of Things At the heart of the narrative is Weiser's desire for deeper connection which animated his life and inspired his notion of what technology at its best could be

Technology and governance
Casper Jaspers,2021-07-05 The relationship between humans and technology is one of immense progress It encompasses many life-changing inventions such as fire and electricity which have had a positive impact on humanity overall But

technology is developing so rapidly that we rarely take a moment to reflect on whether we are shaping technology or whether it is shaping us How much do you know about key technologies such as artificial intelligence blockchain and the internet of things And do you understand how technology affects us and why ethics plays such an essential role in both its design and its real world application Technology and Governance allows you to get up to speed with fast paced technological changes The author takes complex technical ideas and distils them into user friendly concepts Even if you lack detailed knowledge of the mathematics behind deep learning or the computer code behind digital currencies this book will provide an understanding of disruptive technology s present and future impact on society Casper Jaspers is a tech entrepreneur and a corporate lawyer He is a guest lecturer in the New Board Program Nyenrode Business University and a lecturer at the Centre for Professional Legal Education CPO

Startup Finance 2.0 Sam Ghosh,2025-08-29 Traditional corporate financial theories and tools are based on matured companies with the assumption that the companies are going concerns Going Concern refers to the assumption that a company will continue to operate indefinitely with no intention or necessity of liquidation or cessation of operations in the foreseeable future The problem is that the Going Concern assumption does not hold for startups due to the inherent uncertainty associated with startups Traditional financial education and resources usually meant for analysts and accountants aren t ideal for entrepreneurs They focus on analyzing past data from established businesses not on making forward looking decisions in the uncertain and highly dynamic environment of startups Entrepreneurs also often struggle to prioritize the allocation of resources between seemingly urgent matters and matters that are important for the long term value of the startup Thus this book takes a value oriented approach to startup finance The book is designed to build the financial intuition that an entrepreneur needs to prioritize matters vital for the long term value of the company raise capital and allocate capital for value maximization It also looks at finance from a value creation point of view and covers specific methods especially suited for startups from investment assessment to valuation to fundraising to managing day to day finances
