Show me your playlist and I tell you who you are Kathrin Rochow,2012-11-28 Bachelor Thesis from the year 2010 in the subject Psychology Social Psychology grade 1 0 Uppsala University language English abstract In the age of social networking and music streaming playlists are a common tool for organizing sharing or exchanging music in the digital realm Most research however emphasizes mainly political legal and ethical constraints of music sharing practices yet neglects their social impact Thus this paper investigates the social psychological foundation of the playlist and analyses its functionality in establishing social relations and communication Following the theories of Cooley Mead Simmel and Solomon I conducted and analysed interviews with young Swedish men and women in which they talked about their experiences and attitudes towards playlists Moreover all participants compiled their own personal playlist based on certain personality traits which were aimed to be recognized by the others during the focus group discussion The analysis of the data yields the following conclusions The playlist is a social object facilitating new forms of communication The social nature of the playlist is based on the transformation from objective into subjective culture By internalizing new technologies such as the playlist objects gain

social value thus mere musical content becomes a social form It is through sharing and exchanging musical compilations that the playlist as a social form serves as a vehicle or medium facilitating new forms of sociation and communication The communicative function of the playlist is due to its construction through emotions as uniquely subjective judgements based on the I as an emotional self feeling Thus musical compilations take part in the self construction process and can serve as a tool for the symbolic expression of the self Moreover the analysis points out that there are differences in how well certain parts of the self can be communicated by a playlist Emotional expressions of the self are translated into particular universal music patterns most successfully Furthermore the analysis shows that some people like to browse through the playlists of others and judge them thereupon which results in some type of musical voyeurism termed playlistism In conclusion I argue that the musical playlist is both socially implicated and socially implicating

Zukunftsvisionen junger Radiomacher Christina Trelle,2015-03-23 Bachelorarbeit aus dem Jahr 2015 im Fachbereich Medien Kommunikation Journalismus Publizistik Note 1 5 Technische Universit t Dortmund Institut f r Journalistik Veranstaltung Journalistik Sprache Deutsch Abstract Vom Campusradio in die Berufswelt Das ist der berufliche Werdegang von fast allen bekannten Radiomachern Sie haben ihre Wurzeln bei einem Unisender Wer sich um eine feste oder freie Mitarbeit beim Radio bewirbt soll am besten schon jahrelange Erfahrung on air mitbringen F r Berufseinsteiger bieten Campusradios die M glichkeit genau diese noch vor dem Studienabschluss zu sammeln Hochschulradios sind Spielwiesen f r junge kreative K pfe Diskussionen wie zukunftsfiges Radio gemacht werden sollte inwieweit zum Beispiel soziale Medien und das Internet in die Arbeit miteinbezogen werden sollten geh ren ganz selbstverst ndlich zum Alltag von Campusradios als Ausbildungsst tte f r zuk nftige Radiomacher Doch auch die gro en Medien m ssen sich mit diesen Fragen auseinandersetzen Denn das Mediennutzungsverhalten der Deutschen ndert sich Content wird h ufiger ber das Internet abgerufen und ver ndert auch die Art und Weise wie das Medium Radio rezipiert wird Zwar steht das klassische UKW Radio in diesem Zusammenhang noch in einer hohen Gunst bei den Mediennutzern doch Zahlen aus dem aktuellen Digitalisierungsbericht zeigen dass immerhin 30

Prozent der Deutschen Radio zumindest gelegentlich über Internet hören. Das hängt auch mit den ergreifenden Informationen zusammen, die das Internetradio im Gegensatz zum klassischen UKW Radio bieten kann. Wolfgang Hennkens von der Universität der Künste in Berlin nennt folgendes Beispiel, das illustriert, dass Radiokonzepte in Zukunft die Nutzungsweisen anderer digitaler Kanäle berücksichtigen müssen. Eine Wetter App ist auf jedem Mobiltelefon installiert. Braucht das Radio der Zukunft dann noch ein Wetter Update? Das Campusradio als Spielwiese und Ausbildungsstätte zukünftiger Radiomacher ist ein idealer Ort, um das verändernde Mediennutzungsverhalten berücksichtigende neue Radiokonzepte zu entwickeln. Es stellt sich die Frage, inwieweit Campusradios diese Chance tatsächlich nutzen. Wie nutzen Campusradios schon heute Apps, Social Media und crossmediales Arbeiten? Werden Konzepte entwickelt, die in Zukunft auch bei großen Radios ankommen? Und müssen dies sind die zentralen Forschungsfragen der vorliegenden Arbeit.
