Teaching on Assessment Sharon L. Nichols, Divya Varier, 2021-03-01

In an age where the quality of teacher education programs has been called into question it is more important than ever that teachers have a fundamental understanding of the principles of human learning motivation and development

Theory to Practice Educational Psychology for Teachers and Teaching is a series for those who teach educational psychology in teacher education programs

At a time when educational psychology is at risk of becoming marginalized it is imperative that we as educators walk our talk in serving as models of what effective instruction looks like

Each volume in the series draws upon the latest research to help instructors model fundamental principles of learning motivation and development to best prepare their students for the diverse multidimensional uncertain and socially embedded environments in which these future educators will teach

The inaugural volume Teaching on Assessment is centered on the role of assessment in teaching and learning

Each chapter translates current research on critical topics in assessment for educational psychology instructors and teacher educators to consider in their teaching of future teachers

Written for practitioners the aim is to present contemporary issues and ideas that would help teachers engage in meaningful assessment practice

This volume is important not only because of the dwindling presence of assessment related instructional content in teacher preparation programs but also because the policy changes in the last two decades have transformed the meaning and use of assessment in K 12 classrooms

Praise for Teaching on Assessment

This thought provoking book brings together perspectives from educational psychology and teacher education to examine how assessment can best support student motivation engagement and learning

In the volume editors Nichols and Varier present a set of chapters written by leaders in the field to examine critical questions about how to best prepare teachers to make instructional decisions understand assessment within the context of learning and motivation theory and draw on assessment in ways which can meet the needs of diverse learners

Written in a highly accessible language and style each chapter contains clear takeaway messages designed for educational psychologists teacher educators teachers and pre service teachers

This book is essential reading for anyone involved in teaching or developing our future teaching professionals

Lois R Harris Australian Catholic University

This impressive book provides a wealth of contemporary and engaging resources ideas and perspectives that educational psychology instructors will find relevant for helping students understand the complexity of assessment decision making as an essential component of instruction

Traditional assessment principles are integrated with contemporary educational psychology research that will enhance prospective teachers decision making about classroom assessments that promote all students learning and motivation

It is unique in showing how to best leverage both formative and summative assessment to boost student engagement and achievement enabling students to understand how to integrate practical classroom constraints and realities with current knowledge about self regulation intrinsic motivation and other psychological constructs that assessment needs to consider

The chapters are written by

established experts who are able to effectively balance presentation of research and theory with practical applications. Notably the volume includes very important topics rarely emphasized in other assessment texts including assessment literacy, frameworks, diversity, equity, assessment strategies for students with special needs, and data driven decision making. The book will be an excellent supplement for educational psychology classes or for assessment courses introducing students to current thinking about how to effectively integrate assessment with instruction. James McMillan, Virginia Commonwealth University
