Motivational Interviewing in Schools Keith C. Herman, Wendy M. Reinke, Andy Frey, Stephanie Shepard, 2014 The authors of this book have made a very important contribution in producing a book that literally provides a roadmap for how to realize MI's potential in school and family contexts They are the acknowledged leaders of MI in schools and deserve much credit for adapting this approach so well for effective use by educators The content coverage of the book's chapters and its strong focus on the development of tools strategies and detailed relevant examples of MI implementation in schools and also with families are in my view truly exemplary I recommend it unconditionally as an invaluable resource for today's related services professional Hill Walker PhD University of Oregon This is an important well written and groundbreaking book Motivational interviewing MI has been widely applied in health care corrections mental health and addiction services and social work but this is the first book to explore broadly how it can be used by school professionals This is an up to date well documented presentation of the spirit and method of MI integrating it with behavioral theory and research Practical exercises and examples support learning of how to apply MI in everyday conversations about change with parents teachers students families and school based teams William R Miller PhD The University of New Mexico Motivational Interviewing has really influenced my thinking about instructional coaching and I've often wished there was a book that applied the ideas to education Finally that book is here This book deepens our understanding of the personal experience of change and explains how that understanding helps us work with students parents teachers and others within schools If you're an educator you should be interested in how people change and if you're interested in change you should read this book Jim Knight PhD Author of Instructional Coaching A Partnership Approach to Improving Instruction If you are a school counselor school psychologist or other school based professional and you want to learn how to use motivational interviewing in schools this is a must read book It is a treasure trove of knowledge and skills concerning the theory and step by step applications of motivational interviewing in elementary middle and high schools A real strength are the many practical examples and sample forms that illustrate and support how motivational interviewing can effect positive changes in behavior It is a book that will change the way you practice in schools Norman C Gysbers PhD Curators Distinguished Professor University of Missouri 201G Student Success Center Editor Emeritus Journal of Career Development One of the greatest challenges for mental health and other professionals in school settings is to get students families and staff willing to partake of and engaged in their services This is the first book on applying motivational interviewing MI a powerful evidence based technique for facilitating behavior change throughout the school environment to help psychologists counselors and other school based professionals to improve the effectiveness of their practice Based on encouraging research on the value of MI in K 12 settings this practical book explains the basic elements of MI theory and demonstrates step by step how the four stage process of engaging focusing evoking and planning can be used with the families of students who need psychological or counseling services teachers who need consultation and support to improve classroom management and the students themselves The

book discusses barriers to readiness to change and describes how to foster engagement and compliance with school services to increase the likelihood that positive change will occur. It also describes how MI can be used to increase the effectiveness of inter professional teams in school settings along with ways in which MI can be integrated into and build support for already established programs. Richly illustrated with examples of using MI as a strategy for promoting everyday conversations about change, the nucleus of MI practice, the book also includes case studies and sample handouts for mental health professionals, students, family members, and teachers. **Key Features:** Demonstrates how to apply motivational interviewing to the K-12 environment to help school professionals improve effectiveness. Explains the four stage process of engaging, focusing, evoking, and planning. Shows how MI can be used with children, their families, and teachers to facilitate change. Describes how MI can be integrated into other established programs. Includes plentiful case studies and examples of MI as a strategy for promoting everyday conversations about change.

Finding Your Way to Change Allan Zuckoff, Bonnie Gorscak, 2015-01-06. I know this change would be good for me but I just can't seem to commit to it. Whether it's eating healthier, making a long desired career change, or ending self-destructive patterns in relationships, old habits die hard. The good news is it's perfectly normal to feel stuck, and with motivational interviewing, MI, you can understand what's keeping you there and how to break free. Allan Zuckoff and Bonnie Gorscak are MI experts who translate this proven counseling approach into powerful self-help strategies and practical tools. Readers learn how to deal with unhelpful pressure to change both from others and from within, overcome self-judgment and shame, and build confidence for developing and carrying out a doable personal change plan. Vivid stories illustrate the techniques in action. Purchasers get access to a Web page where they can download more than 60 worksheets and have the option to fill in forms on screen before printing and/or saving.

Motivational Interviewing with Offenders Jill D. Stinson, Michael D. Clark, 2017-06-28. From experts on working with court-mandated populations, this book shows how motivational interviewing, MI, can help offenders move beyond resistance or superficial compliance and achieve meaningful behavior change. Using this evidence-based approach promotes successful rehabilitation and reentry by drawing on clients' values, goals, and strengths, not simply telling them what to do. The authors clearly describe the core techniques of MI and bring them to life with examples and sample dialogues from a range of criminal justice and forensic settings. Of crucial importance, the book addresses MI implementation in real-world offender service systems, including practical strategies for overcoming obstacles. This book is in the Applications of Motivational Interviewing series, edited by Stephen Rollnick, William R. Miller, and Theresa B. Moyers.

Contemporary Perspectives on Research in Motivation in Early Childhood Education Olivia Saracho, 2019-03-01. Researchers from different disciplines, e.g., physiological, psychological, philosophical, have investigated motivation using multiple approaches. For example, in physiology, the scientific study of the normal function in living systems, such as biology, researchers may use electrical and chemical stimulation of the brain, the recording of electrical brain wave activity with the electroencephalograph, and lesion techniques where a portion of the brain, usually of a

laboratory animal is destroyed and subsequent changes in motivation are noted Petri Cofer 2017 Physiological studies mainly conducted with animals other than humans have revealed the significance of particular brain structures in the control of fundamental motives such as hunger thirst sex aggression and fear In psychology researchers may study the individuals behaviors to understand their actions In sociology researchers may examine how individuals interactions influence their behavior For instance in the classroom students and teachers behave in expected ways which may differ when they are outside the classroom Saracho 2003 examined the students academic achievement when they matched or mismatched their teachers way of thinking She identified both the teachers and students individual differences and defined consistencies in their cognitive processes In philosophy researchers can study the individuals theoretical position such as supporting Maslow s 1943 concept that motivation can create behaviors that augments motivation in the future Abraham H Maslow s theory of self actualization supports this theoretical position Petri Cofer 2017 These areas and others are represented in this volume This volume is devoted to understanding mutual and contemporary themes in the individuals motivation and its relationship to cognition The current literature covers several methods to the multifaceted relationships between motivational and cognitive processes Comprehensive reviews of the literature focus on prominent cognitive perspectives on motivation with young children which includes ages from birth to eight years of age The chapters in this special volume review and critically analyze the literature on several aspects of the relationships between motivational and cognitive processes and demonstrates the breadth and theoretical effectiveness of this domain This brief introduction acknowledges the valuable contributions of these chapters to the study of human motivation This volume can be a valuable tool to researchers who are conducting studies in the motivation field It focuses on important contemporary issues on motivation in early childhood education ages 0 to 8 to provide the information necessary to make judgments about these issues It also motivates and guides researchers to explore gaps in the motivation literature
