

A close-up photograph of a dark red rose, its petals tightly curled and showing some lighter, almost white, inner layers. The rose is set against a solid black background, which makes the deep red of the petals stand out. Overlaid across the center of the rose is the word "ROMANTASY" in a large, elegant, gold-colored serif font. The letters are slightly shadowed, giving them a three-dimensional appearance as if they are floating or resting on the petals.

The Romance of William of Palerne Walter William Skeat, 1867 **The Romance of William of Palerne: - Otherwise Known as the Romance of "William and the Werwolf". - Translated from the French ... The Oxford Guide to the Romance Languages Adam Ledgeway, Martin Maiden, 2016 The Oxford Guide to the Romance Languages is the most exhaustive treatment of the Romance languages available today. Leading international scholars adopt a variety of theoretical frameworks and approaches to offer a detailed structural examination of all the individual Romance varieties and Romance speaking areas including standard non standard dialectal and regional varieties of the Old and New Worlds. The book also offers a comprehensive comparative account of major topics, issues and case studies across different areas of the grammar of the Romance languages. The volume is organized into 10 thematic parts. Parts 1 and 2 deal with the making of the Romance languages and their typology and classification respectively. Part 3 is devoted to individual structural overviews of Romance languages, dialects and linguistic areas while Part 4 provides comparative overviews of Romance phonology, morphology, syntax, semantics and pragmatics and sociolinguistics. Chapters in Parts 5-9 examine issues in Romance phonology, morphology, syntax, semantics and pragmatics and discourse respectively while the final part contains case studies of topics in the nominal group, verbal group and the clause. The book will be an essential resource for both Romance specialists and everyone with an interest in Indo-European and comparative linguistics. **The ancient**

English romance of William and the werwolf ed. with an intr. and glossary by F. Madden Guillaume (de Palerne.), 1832 **Old French and Comparative Gallo-Romance Syntax** Frede Jensen, 2012-01-02 The book series *Beihefte zur Zeitschrift für romanische Philologie* founded by Gustav Gröber in 1905 is among the most renowned publications in Romance Studies. It covers the entire field of Romance linguistics including the national languages as well as the lesser studied Romance languages. The editors welcome submissions of high quality monographs and collected volumes on all areas of linguistic research on medieval literature and on textual criticism. The publication languages of the series are French, Spanish, Portuguese, Italian and Romanian as well as German and English. Each collected volume should be as uniform as possible in its contents and in the choice of languages. Romance Linguistics 2009 Sonia Colina, Antxon Olarrea, Ana Maria Carvalho, 2010-01-01 The thirty-ninth annual Linguistic Symposium on Romance Languages (LSRL) was held for the first time at the University of Arizona 27-29 March 2009. The by now traditional parasession was devoted to Variation and Change in Romance. *The Dublin University Magazine*, 1834 Naming and Namelessness in Medieval Romance Jane Bliss, 2008 A survey of the significance of names or their absence in medieval English, French and Anglo-Norman romance. Naming and namelessness are among the major themes of medieval romance. Because the genre is so difficult to define, scholars have viewed romance as containing a critical number of themes; this book treats naming as a major theme of romance and

furthermore examines romance's relationship with contemporary naming theory. A new genre it is able to play with naming in a way that previously established genres are not. The book begins with a discussion of the medieval background to romance and explores a series of naming patterns found across a broad range of texts. It continues with detailed analysis of twenty-one romances in English, French, and Anglo-Norman from 1130 to 1500 to show how naming themes are treated differently in each and to demonstrate the importance of name as a generic marker. Finally, an appendix provides details of each romance's context together with indications for further research.

JANE BLISS is an independent scholar; she gained her PhD from Oxford Brookes University.

A Natural History of the Romance Novel Pamela Regis, 2003. Situating each novel in its own time while interpreting it through the critical vocabulary she proposes, Regis specifies how romance conventions change yet retain the essential formal requirements of the genre.

BOOK JACKET

The Romance Verb Martin Maiden, 2018. This book is the first comprehensive comparative historical survey of patterns of alternation in the Romance verb that persist through time but have long ceased to be conditioned by any phonological or functional determinant. Right Romance Emily Griffiths Jones, 2020-04-23. In this book, Emily Griffiths Jones examines the intersections of romance, religion, and politics in England between 1588 and 1688 to show how writers during this politically turbulent time used the genre of romance to construct diverse ideological communities for themselves. Right Romance argues for a recontextualized understanding of romance as a multigeneric narrative structure or strategy rather than a prose genre and rejects the common assumption that romance was a short-lived mode most commonly associated with royalist politics. Puritan republicans likewise found in romance strength, solace, and grounds for political resistance. Two key works that profoundly influenced seventeenth-century approaches to romance are Philip Sidney's *New Arcadia* and Edmund Spenser's *The Faerie Queene*, which grappled with romance's civic potential and its limits for a newly Protestant state. Jones examines how these works influenced writings by royalists and republicans during and after the English Civil War. Remaining chapters pair writers from both sides of the war in order to illuminate the ongoing ideological struggles over romance. John Milton is analyzed alongside Margaret Cavendish and Percy Herbert, and Lucy Hutchinson alongside John Dryden. In the final chapter, Jones studies texts by John Bunyan and Aphra Behn that are known for their resistance to generic categorization in an attempt to rethink romance's relationship to election, community, gender, and generic form. *Original and Persuasive: Right Romance* advances theoretical discussion about romance, pushing beyond the limits of the genre to discover its impact on

concerned but also of the specific medieval contexts that produced or influenced them. The contexts explored here include traditional literary features such as genre and rhetorical technique and literary cultural questions of authorship, transmission, and readership, but they also extend to such broader intellectual and social contexts as medieval understandings of geography, the physiology of swooning, or the efficacy of baptism. A framing context for the volume is provided by Derek Pearsall's prefatory essay in which he revisits his seminal 1965 article on the development of Middle English romance.

Rhiannon Purdie is Senior Lecturer in English, University of St Andrews. Michael Cichon is Associate Professor of English at St Thomas More College in the University of Saskatchewan. New Frontiers in Popular Romance Susan Fanetti, 2022-06-07

In the twenty-first century, the romance genre has gained a growing academic response, including the creation of the International Association for the Study of Popular Romance. Popular romance has long been so ignored and maligned that seemingly every scholarly work on it opens with a lengthy defense of the genre and its value for academic study. Even the early scholarly works on the genre approach it in ways that, while primarily respectful, make sweeping generalizations about popular romance, its texts, and its readers. This essay collection examines the position of the romance genre in the twenty-first century and the ways in which romance responds to and influences the culture and community in which it exists. Essays are divided into six sections which cover the genre's relationship with masculinity, the importance of consent, historical romance representation, social status, and web-based romance fiction.

A Romance of Two Worlds Marie Corelli, 1896

A Romance of Two Worlds starts with a young heroine in first person telling her story of a debilitating illness that includes depression and thoughts of suicide. Her doctor is unable to help her and sends her off on a holiday where she meets a mystical character by the name of Raffello Cellini, a famous Italian artist. Cellini offers her a strange potion which immediately puts her into a tranquil slumber in which she experiences divine visions. Upon waking, she craves more. Later, she meets her unnamed guardian angel who whisks her through infinite solar systems faster than a shooting star while human spirits fly by like gossamer silk. He shares the truth of religion and the secret of human destiny, but still she longs for more. She comes to understand God as pure light and pure love, but it is not enough that she should see and hear these things from the touch of an angel. She wants to master this ability on her own and seeks a oneness with God through a series of meditative disciplines while locked away in a monastery.

Joseph Conrad and the Swan Song of Romance Katherine Isobel Baxter, 2010

In the first critical study wholly devoted to Joseph Conrad's use of techniques associated with the literary tradition of romance, Baxter explores the ways in which Conrad borrows from, alludes to, and subverts the tropes of romance. Baxter examines not only familiar novels like *Lord Jim* but also less studied works such as *Romance* and *The Rover*. Her study enables a new appreciation of the ways in which Conrad continued to experiment, even in his later fiction, and of the ethical import of that aesthetic experimentation.
