Science Experiments Airpods Review:

Brains and Machines: Towards a unified Ethics of AI and Neuroscience ,2024-05-24 Brains and Machines Towards a unified Ethics of AI and Neuroscience provides a comprehensive overview of concepts and ethical issues at the intersection of two emerging technological trends in the 21st century AI and neurotechnology In line with recent advances across both fields debates about philosophical ethical regulatory and social issues raised by neuroscience and AI have considerably expanded in the past decade Yet despite many intersections and fruitful interactions between the two scientific domains ethical debates about neuroscience and AI have mostly moved in parallel This volume assembles voices from various disciplines to provide a more unified view and offer novel perspectives on two complementary lines of discourse The volume provides scientific background by outlining the state of the art of applying AI in the field of neuroscience and discussing instances where findings and debates from neuroscience provide cues and inspiration to the study of AI Based on this background the book then addresses conceptual frameworks identifies ethical challenges at the intersection of neuroscience and AI and highlights challenges and opportunities of finding common ground in interdisciplinary settings Provides complementary perspectives from international experts on neuroscience AI and ethics Searches for common ground in debates that have in the past often moved in parallel Provides an introduction into current ethical debates at the intersection of two fast moving key technologies

The Craft of Scientific Films Lauren Murphy,Michael Alley,2023-08-31 This book the first of its kind helps scientists and engineers of all stages and disciplines share their work in a new way with movies Today much of scientific communication is embedded in papers and presentations but these documents don t often extend outside of a specific academic field By adding movies as a medium of communication scientists and engineers can better communicate with their colleagues while also increasing their reach to students professors peers potential collaborators and the public Scientific films help translate complex technical topics into more accessible and consumable messages By following Lauren Murphy s filmmaking formula planning shooting and editing readers will create their very own scientific films that look professional and polished Using tools as simple as a smartphone readers can develop short personal stories with no cost or experience needed This book will guide readers through all steps of the movie making process to a finished product Readers will evolve their creative thinking skills and use their movies to improve classroom presentations network across student organizations present at conferences recruit students for their labs secure grant money and more Adding a movie to your body of work can be the tool that sparks interest in audiences to learn more driving traffic to your publications research projects and websites This book will help you develop new skills to become a better communicator while spreading your ideas and research to new audiences
