

ANDREW HUBERMAN'S MORNING ROUTINE

Wake up early

Waking up early, around 5:00 or 6:00 am helps you feel more energized and focused throughout the day.

Get exposure to natural light

This can help to regulate the body's internal clock and improve overall mood and energy levels.

Hydrate

Adding some lemon juice or apple cider vinegar to the water alkalizes the body and improves gut health.

Meditate

Practice for at least 10 minutes every morning to help reduce stress and improve mental clarity.

Stretch

Spend a few minutes stretching to improve flexibility, reduce muscle tension, and increase blood flow.

Exercise

Engage in some form of physical activity to help improve overall fitness and energy levels.

Fuel up with a healthy breakfast

A healthy breakfast (eggs, avocado, and whole-grain toast...) will provide sustained energy throughout the day.

Cold exposure

Taking a cold shower improves circulation, reduces inflammation, boosts metabolism, and guards your health against cold weather.

Journal

Journaling can help you improve self-awareness and mental clarity.

Set and review daily goals

Review your goals at the end of the day as a way to reflect on progress and identify areas for improvement.

The Brain, a Galaxy in Your Head David Fortin, 2025-08-29 The human brain is the most complex object known in the universe It is said that there are as many stars in the milky way as there are neurons in the brain Interestingly the parallel between the universe and the brain goes further as the matter density distribution in the universe would resemble that in the brain no less This book summarizes the current knowledge on the brain extending this knowledge into philosophical considerations It first retraces historical milestones in the discovery of the brain followed by a detailed and balanced account on current knowledge on the subject Admittedly the goal here is to summarize intelligibly the knowledge on the subject without going too much into details The next step in this odyssey is then to consider more philosophical implications on the brain hence we will discuss one of the greatest mysteries of all the consciousness The last chapter will

draw the line between the biological brain and AI which we will see have strictly nothing in common Finally we will study the impacts of digital technologies on our brains This is the perfect guide to familiarise yourself with the marvel within your head your brain *Reinventing Manufacturing and Business Processes Through Artificial Intelligence* Geeta Rana,Alex Khang,Ravindra Sharma,Alok Kumar Goel,Ashok Kumar Dubey,2021-12-14 This edited book describes how newly emerging Artificial Intelligence AI technologies will provide unprecedented opportunities to penetrate technology and automation into everything we do and at the same time provide a huge playing field for businesses to develop newer models to capture market share It establishes a milestone in understanding global transformational changes occurring in the manufacturing and corporate world due to AI and tries to find powerful and sophisticated solutions that will improve and streamline operations Reinventing Manufacturing and Business Processes Through Artificial Intelligence will be of interest to students researchers and professionals of the AI community as well as interdisciplinary researchers *Artificial Intelligence and Precision Oncology* Zodwa Dlamini,2023-01-21 This book highlights the use of artificial intelligence AI big data and precision oncology for medical decision making in cancer screening diagnosis prognosis and treatment Precision oncology has long been thought of as ideal for the management and treatment of cancer This strategy promises to revolutionize the treatment control and prevention of cancer by tailoring tests treatments and predictions to specific individuals or population groups In order to accomplish these goals vast amounts of patient or population group specific data needs to be integrated and analysed to be able to identify key patterns or features which can be used to define or characterize the disease or the response to the disease in these individuals These patterns or features can be as varied as molecular patterns or features in medical images This level of data analysis and integration can only be achieved through the use of AI The book is divided into three parts starting with a section on the use of artificial intelligence for screening diagnosis and monitoring in precision oncology The second part Artificial intelligence and Omics in precision oncology highlights the use of AI and epigenetics metabolomics microbiomics in precision oncology The third part covers artificial intelligence in cancer therapy and its clinical applications It also highlights the use of AI tools for risk prediction early detection diagnosis and accurate prognosis This book written by experts in the field from academia and industry will appeal to cancer researchers clinical oncologists pathologists medical students academic teaching staff and medical residents interested in cancer research as well as those specialising as clinical oncologists *Textbook of Pulmonary and Critical Care Medicine Vols 1 and 2* SK Jindal, PS Shankar, Suhail Raoof, Dheeraj Gupta,2011-03-20 Book includes the basic principles of Pulmonology as well as the recent advances in allied clinical sciences relevant to pulmonology Includes valuable inputs on tuberculosis other pulmonary infections environmental and occupational medicine sleep disorders and general systemic diseases affecting the respiratory system Although critical care is relevant for most of the medical and surgical specialties the pulmonologist have a more vested interest than other specialists Assisted respiration which forms the core of most critical care lies in the primary domain of
