Collision Processes Of Ion, Positron, Electron And Photon Beams With Matter - Proceedings Of Elaf 91 Ana Cecilia De Azevedo E Souza, Marco Antonio Chaer Nascimento, Danilo De Paiva Almeida, Enio Frota Da Silveira, Jose Carlos

Nogueira, 1992-04-30 The proceedings contain lectures and contributed papers presented at the Latin American School of Physics in Caxambu Brazil Topics are related to a review of collision processes excitation and ionization of molecules ion formation by electron impact mass and energy spectroscopy in collision reactions desorption induced by ion and electron beams and principles and applications of synchrotron radiation The major theme of the school was Current methods in collision processes Scattering and Dynamics of Polymers Charles C. Han, A. Ziya Akcasu, 2011-07-05

Scattering is a very powerful tool to study the structure of polymers Written by highly regarded and respected scientists in the field this book presents the latest developments in the field of scattering in a uniform systematic manner This volume arms readers with both theoretical and experimental aspects of the intended area offering much simplified theoretical explanations on the physics of scattering The authors provide discussion on applications of experimental techniques Han and Akcasu begin with a traditional treatment of light scattering from plane waves followed by consistent application of density in both real and Fourier space correlation functions in both space and time The authors do not distinguish among light X ray and neutron excepting their scattering length q range coherence and detection differences Readers can therefore concentrate on exactly the scattering tools they need to use while theoretical explanation on the physics of scattering can be made much more simplified and uniform Presents the latest development in the field of scattering in a uniform systematic manner Arms readers with both theoretical and experimental aspects Gives a much simpler theoretical explanation on the physics of scattering Demonstrates application of experimental techniques
