Klonowski, 2014-11-27 Entrepreneurial finance is a discipline that studies financial resource mobilization resource allocation risk moderation optimization in financial contracting value creation and value monetization within the context of entrepreneurship However without proper strategic consideration the discipline is incomplete This book examines how the activity of entrepreneurial finance can be enhanced via a concentration on value creation and through improved strategic decision making The most unique feature of the book is its focus on value creation For entrepreneurs value creation is not a one off activity but rather a continuous cycle of incremental improvements across a wide range of business activities Entrepreneurial value creation is described in four comprehensive stages value creation value measurement value

enhancement and value realization referred to as the C MER model This book focuses on what creates value rather than merely presenting value creation in a straight accounting framework At the same time deliberate and tactical planning and implementation ensure that the firm does not ignore the components necessary for it to survive and flourish Vigorous strategic deliberations maximize the entrepreneurial firm s chances of making the right business decisions for the future enable the firm to manage its available financial and non financial resources in the most optimal manner ensure that the necessary capital is secured to progress the development of the firm to its desired development level and build value While financial considerations are important the field of strategic entrepreneurial finance represents a fusion of three disciplines strategic management financial management and entrepreneurship This orientation represents a natural evolution of scholarship to combine specific domains and paradigms of naturally connected business disciplines and reflects the need to simultaneously examine business topics from different perspectives which may better encapsulate actual entrepreneurial practices *The International Hospitality Business* Lawrence Yu, 1999 Yu

tourism and hospitality management George Washington University examines the social cultural political and economic environment within which international hospitality operations compete He covers a broad range of policy issues in operating hotels and restaurants in foreign countries including development strategies and organizational structures He also discusses managerial functions such as accounting

finance tax law marketing and human resources The book is intended for both students and managers Annotation copyrighted by Book News Inc Portland OR **Workbook for Small Business Management** Tim Mazzarol, Sophie Reboud, 2019-11-21 This workbook accompanies the textbook Small Business Management Theory and Practice The textbook familiarises students with the theory and practice of small business management and challenges assumptions that may be held about the way small business management can or should adopt the management practices of larger firms For students interested in establishing and managing their own small firm this book helps them to focus their thinking on the realities of life as a small business owner manager both its challenges and its rewards For postgraduate students that are keen to make a difference this text enables them to understand how they might consult to small firms and assist owner managers to establish and grow their ventures In addition to students this book is also useful to small business owner managers as a general guide on how they might better manage their operations Managers in large corporations and financial institutions who deal with small businesses as clients or suppliers and professionals such as accountants lawyers and consultants who provide advice and other services to small businesses will also find the book of interest
