Fisher,Jeff Caird,William Horrey,Lana Trick,2016-09-19 Despite a growing body of research and targeted remediation
teenage and novice drivers continue to be six to nine times more likely to die in a crash than they are when they are just a
few years older The World Health Organization reports that road traffic injuries are the leading cause of death globally
among 15 to 19 year olds In light of these crash statistics understanding the teen driver problem remains of paramount
public health importance around the world The Handbook of Teen and Novice Drivers Research Practice Policy and
Directions provides critical knowledge for a broad range of potential readers including students teachers researchers in
academics industry and the federal government public policy makers at all levels insurance companies and automobile
manufacturers driving instructors and parents and their teens Recovering from Your Car Accident Dr. James F.
Zender,2020-10-30 Road traffic injuries are a neglected global pandemic Up to 50 million people a year worldwide are
injured or disabled in car accidents The deleterious impact on the global economy is immense Thousands of those injured die
of opiate overdoses trying to deal with chronic pain The post accident life of a survivor is all too often devastated by spinal or
severe orthopedic injuries depression anxiety PTSD sleep disturbances mild episodic or chronic pain and or a traumatic brain
injury that can cause personality changes cognitive and memory impairments and debilitating fatigue A substantially reduced
quality of life with career changes and setbacks broken and overstressed relationships and financial hardships that continue
for many years often ensue First Responders healthcare providers the survivors community and to the largest degree the
survivors family are forced to deal with the staggering impacts Auto accidents can dramatically alter lives forever Where do
survivors and their families go for help How do survivors heal and get their lives back Everyone is desperate for hope and
evidence based solutions to manage disabling conditions and ultimately reclaim their lives This is the first book to offer
comprehensive evidence based information to both the survivors and their caregivers on understanding managing and
healing physical and emotional traumas sustained in auto accidents Based on James Zender s more than fifteen years
experience as a clinical psychologist specializing in auto accident trauma care Recovering From Your Car Accident leads
survivors and their families through the extensive process of emotional and physical recovery With empathy and compassion
Dr Zender explains how to conquer the multitude of challenges that often result from auto accidents including managing pain

depression and anxiety addressing concerns about the future and finances personality changes emotional and cognitive dysfunction post traumatic stress traumatic brain injury and strained personal relationships Through stories recounted by Dr Zender s patients survivors will learn that they are not alone and that there is hope for a better tomorrow Policymakers will gain insight into accident prevention and will be inspired to implement policy improvements to better meet the needs of the auto accident community Helpful tips throughout this book and a resource section featuring the best online and community support options will aid survivors and their families with rehabilitation Recovering from Your Car Accident will assist survivors with rebuilding their lives and discovering new ways to thrive
