The American Gallery of Art John Sartain, 1848 American Paradise Metropolitan Museum of Art (New York, N.Y.), 1987 Traces the history of the Hudson River School of American painters shows works by Church Cole and Inness and describes the background of each painting Architecture in the United States, 1800-1850 William Barksdale Maynard, 2002-01-01 This study traces the development of American architecture from the age of Jefferson to the antebellum era providing a survey of this important period W Barksdale Maynard overturns the long accepted notions that the chief theme of early 19th century American architecture was a patriotic desire to escape from European influence and that competing styles chiefly reflected the American struggle for cultural uniqueness Instead deep and consistent aesthetic ties especially with England shaped American architecture and house designs Maynard shows that the Greek Revival in particular was an international phenomenon with American achievements inspired by British example and with taste taking precedence over patriotism Childe Hassam, American Impressionist Helene Barbara Weinberg, 2004 This illustrated publication accompanies a major exhibition at the Metropolitan Museum the first retrospective presentation of Hassam s work in a museum since 1972 Unique to this volume are an account of Hassam s lifelong campaign to market his art a study of the frames he selected and designed for his paintings and an unprecedented lifetime exhibition record Included in addition are a checklist of works in the exhibition and a chronology of Hassam s life All works in the exhibition as well as comparative materials are reproduced BOOK JACKET **The Grove Encyclopedia of American Art** Joan M.
