*F*ck It! Let's Pivot* Michael Siervo, 2022-02-17 Whether it is a financial crisis, relationship breakdown, critical illness, natural disaster, or a global pandemic, life will hit you hard when you least expect it. Mike Tyson once said, "Everyone has a plan until they get punched in the mouth." The global pandemic blindsided society and upended the world into a new normal. Businesses either died or thrived in this new environment. What separated the survivors from the casualties? How did they do it? It all came down to the pivot. *F*ck It! Let's Pivot* is about how entrepreneurs, side hustlers, and go-getters pivoted from crisis to opportunity. With 17 thoughtful chapters ranging from the history of business pivots to the entrepreneurial mindset, branding, importance of social media, collaborating with local businesses, looking at your own talent pool, pivot strategies that work, leveraging the Gig Economy, and many more concepts, this book is packed with ideas. Experienced businessman Michael Siervo combines humor, anecdotes, and statistics as he shares tips, tools, and lessons from entrepreneurs who pivoted out of danger and into profit. Included in this interactive book are real-life stories of entrepreneurs from around the world who found ways to thrive in the face of adversity. Written in their own words, they share their inspirational stories. With QR codes throughout the book, readers can explore chapter summaries and detailed biographies of contributing authors, making this an engaging experience. You will walk away inspired and confident that change isn't bad. Change is just a part of becoming who you are meant to be.

Four Battlegrounds Paul Scharre, 2023-02-28 An NPR 2023 Books We Love Pick, One of the Next Big Idea Club's Must Read Books. An invaluable primer to arguably the most important driver of change for our future. P. W. Singer, author of *Burn In*, an award-winning defense expert, tells the story of today's great power rivalry, the struggle to control artificial intelligence. A new industrial revolution has begun. Like mechanization or electricity before it, artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power, especially among the AI superpowers: China, the United States, and Europe. Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game-changing technology and dominate the future. *Four Battlegrounds* argues that four key elements define this struggle:

data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre's account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China's National Team of leading AI companies to show the chilling synergy between China's government private sector and surveillance state He interviews Pentagon leadership and tours U.S. Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct *Four Battlegrounds* offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order
